14 October 2025

EWTGPACNOTE 1550

From: Commanding Officer, Expeditionary Warfare Training Group, Pacific

Subj: EXPEDITIONARY WARFARE TRAINING GROUP, PACIFIC 2025 COURSE CATALOG

Encl: (1) 2026 EWTGPAC Course Catalog

1. Purpose. To publish a catalog of Expeditionary Warfare Training Group, Pacific (EWTGPAC) courses available in residence and as Mobile Training Teams for fiscal year 2026. This catalog provides information to students and decision makers on how to take advantage of the many training opportunities available at EWTGPAC. This notice cancels the previously signed EWTGPACNOTE 1550 of 2025.

2. Background. This catalog is the official source of information and guidance concerning the courses conducted by EWTGPAC. It describes the courses offered, as well as the administrative and academic requirements necessary to request quotas and attend.

a. This Course Catalog provides a description of each course, including detailed information about the length, types of training (e.g. individual, unit level, or collective), purpose and scope, and prerequisites for attendance.

b. Many of our courses are accredited by the American Council on Education, which recommends post-secondary educational credits via the service member's Joint Services Transcript.

3. Scope. This information will be used in planning and scheduling resident courses and mobile training teams for fiscal year 2026.

4. Action.

a. EWTGPAC training divisions will support the scheduling policy and course listings set forth by this notice.

b. Commands requesting quotas should note the success of scheduled training will depend on strict adherence to the course prerequisites and special notes that are presented in each course narrative.

5. Records Management. Records created as a result of this notice, regardless of media or format, must be managed per Secretary of the Navy Manual 5210.1 of September 2019.

## Introduction

Purpose. The purpose of this catalog is to promulgate courses available from EWTGPAC to the U.S. Marine Corps, U.S. Navy, and other armed forces. Administrative information is provided to facilitate requests for training.

Policy. EWTGPAC policy is to accommodate the training requirements of each command to the maximum extent possible. Information on each course is provided in the course descriptions found in Chapter 2. Student prerequisites, class capacity/composition, and grade structure restrictions are particularly important to facilitate student learning. OPNAVINST 5510.1(series) applies when classified information is provided as part of Mobile Training Team (MTT) instruction for the host unit.

Scope. This catalog contains pertinent course information and instructions for requesting and participating in training at EWTGPAC. The catalog can be found at: <http://www.ewtgpac.navy.mil/Course-Catalog/>.

Responsibility. This catalog is the responsibility of the EWTGPAC N9 Learning Standards Department. The point of contact is: [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil). The most current version may be found at <http://www.ewtgpac.navy.mil/Course-Catalog/>.

Organization. This catalog is organized in chapters that describe training and specifies course prerequisites and procedures.

How to use this Catalog. To quickly navigate throughout this catalog, utilize the hyperlinked text at the top of most pages. The title of each course links to the **Course Listing** (pp. 3 – 5) for rapid browsing, while every page heading in bold text links to the Table of Contents.

# Chapter 1 General Information and Procedures

## Command Background

1. Command Relationships. EWTGPAC is under the operational control of Commander, Pacific Fleet via Carrier Strike Group 15 (CSG-15) and Commander THIRD Fleet (C3F). EWTGPAC also maintains an administrative relationship with Marine Air-Ground Task Force - Training Command (MAGTF-TC) for oversight of Marine Corps specific programs of instruction and service matters.
2. Mission. EWTGPAC conducts and supports Navy and Marine Corps training and instruction in doctrine, tactics and techniques of Naval Expeditionary Warfare with a focus on amphibious operations to support Commander, Pacific Fleet ready forces that can project military power from the sea and perform all other functions and tasks as may be assigned by higher authority.

## Instructional Presentation Capabilities

1. Resident Courses. Most courses described in this catalog are conducted in residence and can be requested through the appropriate quota control office.
2. Mobile Training Team (MTT) Courses. Many EWTGPAC courses can be presented by MTT, contingent upon the requesting command's furnishing the facilities and other support necessary. Courses that cannot be presented as MTTs are noted as such. Instructors arrive in a Temporary Additional Duty (TAD) status and the hosting command assumes all associated costs not otherwise covered in a service level agreement. Host commands are required to comply with the security measures of OPNAVINST 5510.1 (series) when classified material is included in MTT instruction. Host commands are responsible for meeting class capacity and providing the assistance detailed in each course description. Host commands are required to provide appropriate classroom facilities (furniture, visual aids, etc.). Reproduction of student guides/handouts, and student materials such as 3-ring binders, pens, markers, pencils, rulers, etc. may be required. Host commands may be required to assist in instructor billeting. Special requirements are also identified for each course in Chapter 2.
3. Reserve Training. EWTGPAC plays a major role in the training of Navy and Marine Corps Reservists. Instructors from EWTGPAC provide on-site instruction for members of USMC reserve units under the Marine Forces Reserve (MARFORRES) MTT Program. Navy reservists also attend EWTGPAC courses, and can be scheduled in the same manner as active duty students (see paragraph 1 below).

## Procedures for Requesting Training

1. Navy Resident Courses. EWTGPAC Quota Control is the point of contact for EWTGPAC sponsored, USN, resident courses. The preferred method to request training quotas is by using the enterprise Navy Training Reservation System ([eNTRS](#)). Urgent quota requests may also be submitted via [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil) where the requesting command's TRAINO / Training PO have no access to [eNTRS](#).
2. Users shall provide the following information in an unencrypted e-mail:

- a. Course Title/CDP
  - b. Course Dates
  - c. Student Rank or USN Rate and Full Name
  - d. Student DoDID (aka EDIPI)
  - e. Student E-mail Address
  - f. Requesting Command
  - g. If units are unable to access email, phone requests will be accepted at (619) 437- 2844 / 5679 / 5872 or DSN 577-2844 / 5679 / 5872. Ensure that the information listed in the preceding paragraph is available for the phone call.
3. **Marine Corps Courses**. Marines requesting quotas for USMC funded courses shall refer to the quota control authority listed in Chapter 2 under the relevant course description. All other service members directed to attend Marine Corps courses shall contact the training division responsible for that course directly. Each division has an information page in the catalog that lists contact information.

### Mobile Training Team (MTT) Requests

Units requesting an MTT beyond those approved for the current FY may (a) submit a Feasibility of Support (FOS) Request (Encl. 1) via message traffic, or (b) submit a FOS to [EWTGPAC\\_OPS@navy.mil](mailto:EWTGPAC_OPS@navy.mil) (units without access to AMHS message traffic, only). All other existing MTT arrangements may be found in Chapter 2 under the relevant course description or by contacting the training division responsible for that course directly. Each division has an information page in the catalog that lists contact information.

### Eligibility Requirements

Prerequisites for each course are set forth in the course descriptions contained in Chapter 2. Parent commands must ensure prospective students meet all prerequisites, including specified test scores and physical condition/health requirements. Any requests for a waiver of prerequisites must come from the requesting command's Commanding Officer or Office-in-Charge and shall be addressed to: Commanding Officer, EWTGPAC. Waiver requests must be approved prior to the class convening date. **Students who show up to training and do not meet the prerequisites of their assigned course will be sent back to their command.**

1. **Military and Academic Regulations for Resident Courses**
  - a. Active duty students attending resident courses are attached to EWTGPAC in a Temporary Additional Duty (TAD) status unless attending a course en-route during a PCS transfer. USMC active duty students TAD in excess of 30 days are attached for administrative purposes.
  - b. Reserve students attending resident courses that are thirty days or less in length are attached to EWTGPAC in an Active Duty Training (ADT) status. Reserve students attending resident courses that are in excess of 30 days in length are attached to EWTGPAC for administrative purposes.
  - c. Students and members of units undergoing training are expected to maintain the highest standards of professional conduct and to exercise the authority and leadership responsibilities of their rank.
  - d. Academic performance is evaluated according to the mastery concept. Each student who successfully masters an individual training course will receive a certificate of graduation.

Students should not necessarily expect a certificate when they miss instruction or if they attend a modified course, workshop or symposium.

e. Students may be dis-enrolled from school for academic failure, disciplinary problems, or administrative reasons. All academic dis-enrollments will be preceded by an Academics Review Board conducted by the training division, supervised by Learning Standards, and results approved by the Director of Training. Upon disenrollment, the parent command, previous command, gaining command, and/or BUPERS will be notified.

(1) Academic failure results when a student does not meet the course requirements specified in the program of instruction.

(2) Administrative disenrollment results when a student demonstrates poor professionalism or attitude, requires emergency leave or hospitalization, or for any reason that precludes further attendance in a course. **Students who do not meet prerequisites are not enrolled unless a waiver is granted.**

(3) Disciplinary disenrollment results when a student has, in the opinion of the Commanding Officer, EWTGPAC, committed a violation of the UCMJ. Students dis-enrolled for disciplinary reasons may be the subject of disciplinary action and then returned to their parent command or immediately returned to their parent command for disposition.

2. Performance Evaluation. The performance of students will be formally evaluated by EWTGPAC personnel when the period of assignment warrants the recording or submission of official reports, required by applicable regulations.

a. Marine Corps. Active duty Marines, private through corporal, will receive Junior Enlisted Performance Evaluation System (JEPES) inputs when attached to EWTGPAC for periods of 30 days or more. Marine sergeants and above will receive temporary duty reports indicating mastery or non-mastery of courses when attached for a period of thirty days or more. Otherwise, except for substandard or superior performance, formal evaluations will not be submitted on students. Reports are forwarded from the school to CMC (MMRP). Reserve Marines, private through corporal, will receive proficiency marks reflecting their performance while attending resident courses. Reserve Marine sergeants and above will receive academic fitness reports indicating mastery or non-mastery of resident courses attended.

b. Navy. The evaluations and fitness reports of Navy students TAD to EWTGPAC remain the responsibility of the student's parent command. If the due dates for periodic evaluations and fitness reports occur during training at EWTGPAC for Navy students en-route during a PCS transfer, EWTGPAC will complete the evaluations/fitness reports if necessary.

## Administrative Instructions

1. Preparation of Orders. All students need their original orders in their possession when reporting aboard. The orders must cite the authority granting the quota and list the title and number of the course. Enlisted orders will contain the statement that the student meets all health, fitness, aptitude, and other prerequisites for the course. Students on PCS orders who will attend school while en-route overseas should obtain all port of call information and Antiterrorism/Security Briefs prior to detachment from their parent command.

2. Security Clearance. Courses requiring security clearances are identified in Chapter 2. Students assigned to these courses must have orders that confirm the level, source and date of the

appropriate clearance. Additionally, all students must work with their Command Security Office to have a visit request submitted via the Defense Information System for Security (DISS) no later than one week prior to the start of their course. Members are encouraged to validate whether their own eligibility and access, meet course requirements prior to sending a visit request through their Command Security Office. If students from the same Unit are attending the same course, Units should include all participating command members on the same visit request. A separate visit request must be submitted for each event/course. Permanent visit requests will not be accepted. Submit all visit requests via DISS to SMO code N630186 for collateral courses and SMO code N630183 for SCI courses. Visit requests must be named for the course the student is attending. More guidance on this is available at: <https://www.ewtgpac.navy.mil/JEWL/>. Also, please indicate the course instructor or EWTGPAC POC in the POC block of the request, if possible. Failure to submit a visit request as directed above may interfere with the student's ability to complete the course. For confirmation of visit requests or security related questions please contact the EWTGPAC Assistant Security Manager at 619-767-1998 or [ewtgpac\\_security.fct@navy.mil](mailto:ewtgpac_security.fct@navy.mil).

3. Reporting Data. All students are to report to the Commanding Officer, Expeditionary Warfare Training Group, Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road, Building 15 San Diego, California 92155-5019. PCS personnel should report one-day prior to the scheduled class convening date in order to facilitate billeting, messing and administrative processing. TAD students shall report NLT the report time listed for each course in this catalog, or as directed by the senior course instructor via separate correspondence.

a. Navy Students. Navy students executing PCS orders or Naval Reserve students are to report to Admin Division (N1) in Building 15. Navy students on PCS orders should bring their service, pay, medical, and dental records.

b. Marine Corps Active Duty Students. All Marine Corps active duty students reporting for training in excess of 30 days, are to report to the Marine Corps Personnel and Administration Office (N1), Building 15. Marine Corps Instructor of Water Survival (MCIWS) students, follow reporting procedures located in this catalog for that course.

c. Marine Corps Reserve Students. All Marine Corps reserve students are to report to the Reserve Support NCO, Administration Office (N1), Building 15.

## General Student Information

1. Location. The Naval Amphibious Base Coronado is located across the San Diego Bay from downtown San Diego on a section of State Highway 75, known as the Silver Strand. It is approximately one mile south of downtown Coronado, California.

2. Parking. Parking is limited at Naval Amphibious Base Coronado. Carpooling is encouraged. Units are recommended to use buses to minimize parking requirements. Marked parking spaces are reserved 24-hours a day. Non-designated spaces are open for parking.

3. Lodging. Students requiring lodging should contact the Amphibious Base Coronado Navy Gateway Inn Building 504 at (619) 437-3860 or DSN 577-3860 to make a reservation. Students billeted at the Gateway Inn are encouraged to walk to/from EWTGPAC to reduce parking congestion.

4. Messing. Government messing facilities are generally available for officers and enlisted personnel at Naval Amphibious Base, Coronado Galley. Those students, who have received a Certificate of Non-Availability (CNA) from the Navy Gateway Inn, will receive a Commercial Meal Rate (CMR). All others will utilize the galley and receive Government Meal Rate (GMR).

5. Mailing Address While Attending School

Expeditionary Warfare Training Group, Pacific

Attn: Student Name, Rank

*Title of the Course*

3423 Guadalcanal Road

San Diego, CA 92155-5019

6. Uniforms. All students attending individual training courses should have at least two sets of the appropriate service uniform for classroom wear and other command functions, and at least one utility uniform. Any exceptions to this policy are noted in the course descriptions provided in this catalog. To assist students in planning for uniform requirements while at EWTGPAC, see individual course descriptions in Chapter 2.

7. Course Descriptions. The EWTGPAC course descriptions outlined in Chapter 2 include the following descriptive data:

a. Course Codes:

(1) Course Identifier (CID)/Course Data Processing (CDP). The CID is a seven-digit alphanumeric code used by Training and Education Command (TECOM) to locate a course of instruction at a formal school. (N30D2Z2; N = Navy, 30 = EWTGPAC, D2Z = Service School Code, 2 = Number of Schools at Service Location.)

(2) Course Identification Number (CIN). The alphanumeric code used in the Catalog of Navy Training Courses (CANTRAC – a web-based subsystem of the Corporate enterprise Training Activity Resource System (CeTARS) - to identify courses by sponsor, DOD skill designator, and sequence number, e.g. K-000-0000; K = EWTGPAC, 000 = DOD Skill, 0000 = Sequence Numbers.

(3) Course Data Processing code (CDP). The USN code assigned to uniquely identify each course of instruction and its location.

b. Quota Control. The command or agency from which quotas to a course may be obtained.

c. Length. The actual number of training days/hours of the course.

d. Class Capacity. Reflects the minimum and maximum number of students for which the course can be presented in a cost-effective manner.

e. AQD/MOS/NEC/NOBC. Applicable, Additional Qualification Designations (AQD), Military Occupational Specialties (MOS), Navy Enlisted Classification (NEC) codes, and Navy Officer Billet Classifications (NOBC), received upon completion of EWTGPAC training is found in each course entry on the [Course Listing](#) (pp. 3 - 5) .

f. MASL Number. The Military Articles & Services List (MASL) is a catalog of descriptive codes and text used to identify materiel and services available to be transferred to foreign governments and international organizations.

- g. Format. Indicates whether a course may be taught only in residence (RES) at EWTGPAC or taught as a Mobile Training Team (MTT) at the host unit's location.
- h. Purpose. A concise statement of the course objectives.
- i. Scope. A brief synopsis of the course and a list of subject areas and other important aspects of the course such as testing requirements, mastery criteria, and applicability to reserve units.
- j. Prerequisites. Prospective students must meet, or obtain waivers for, all listed course prerequisites prior to being accepted to a EWTGPAC course of instruction.
- k. Service School Code (SSC). (if applicable) The Manpower Management System identifies graduates of formal school courses through the use of SSCs per the current edition of MCO P1080.20.
- l. Special Notes. Any additional information regarding the course.

# Naval Amphibious Base Coronado

## Chapter 2 Training Divisions

### N71 Amphibious Warfare Staff Planning Division

Organization. The Amphibious Warfare Staff Planning Division provides instruction and expertise in amphibious doctrine and planning. An inter-service team of instructors provides standard instructional packages, through resident and mobile training teams.

General Information. The Amphibious Warfare Staff Planning Division provides amphibious planning and command and control courses for active duty and reserve component Navy and Marine Corps personnel.

Course Coordination. Course Directors/Managers can be contacted at the following numbers for detailed information concerning course content or matters requiring subject area expertise.

<u>AREA</u>	<u>DSN</u>	<u>COMMERCIAL</u>
AAOC	577-3168	(619) 437-3734
AWI / AWSP	577-0815	(619) 437-3743
ARG / MEU Staff Planning	577-3743	(619) 437-3743
Intelligence		(619) 767-1997

## Amphibious Air Operations Coordination (AAOC)

CIN J-2G-0044	CID/CDP None/18JP	MASL Number	None
Length 2 days		Classification	UNCLAS
Class Capacity	Minimum 10 Maximum 32	MOS/NEC	None

Quota Control. EWTGPAC Quota Management Office. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) , or (3) at [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil) (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. In residence at EWTGPAC aboard Naval Amphibious Base, Coronado, and as a Mobile Training Team (MTT) at the requesting unit's location, upon request. Annual frequency for the course is two (2) resident classes.

Purpose. To provide officers and staff noncommissioned officers/senior petty officers (E-6 to O-6) training in the planning and coordination of amphibious / expeditionary air operations, with emphasis on the command and control of amphibious force aviation assets. This course contains information required for effective integration of Amphibious Squadron (PHIBRON) watch-standers and staff, amphibious ship department heads and Combat Information Center (CIC) watch-standers, Tactical Air Control Squadron (TACRON) watch-standers, Marine Expeditionary Unit air officers,

Aviation Combat Element staff, Helicopter Sea Combat (HSC) Detachment OICs, and personnel involved with amphibious / expeditionary air planning and execution.

Scope. The AAOC course provides instruction in the concepts for Joint Force use of airspace, organization of airspace control agencies of the separate DOD services, Command and Control responsibilities of Joint Force Air Component Commander (JFACC), Airspace Control Authority (ACA), area air defense commander (AADC), typical procedural control measures used during amphibious operations, and an introduction to Amphibious Airspace Planning.

### Prerequisites.

1. Officers and SNCOs/POs (pay grades E6 and above) and selected E5 and below in billets that control aircraft.
2. The primary student population is personnel assigned to billets in the Navy Tactical Air Control System (NCTACS- TACC, HDC, AATCC, CIC watch standers, and those responsible for command and control of aircraft and air capable shipping) and Marine Air Command and Control System (MACCS) organizations and personnel who conduct fire support coordination or airspace management functions within expeditionary/amphibious forces.
3. Personnel below E6 must be assigned to an organization/unit and be in a billet that controls air-space and/or aircraft.

FAQs.

1. Class location. Personnel attending a resident course will report to Building 401, Iwo Jima Classroom; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0745. Class starts at 0800. It is advised to plan for an arrival time of 0730 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Working uniform, flight suits.
4. Gear. N/A.
5. Welcome Aboard email. Students receive reporting instructions at least one week before class start date.
6. Orders. Students need to bring printed orders. They will be collected by an instructor at the beginning of class to be stamped (if required) by N1 located in Bldg. 15 across from classroom 8.

## Amphibious Ready Group (ARG)/Marine Expeditionary Unit (MEU) Staff Planning Course

CIN K-2E-3107	CID/CDP N30H4T1/481U	MASL Number	None
Length 10 days/8 hours per day		Classification	<b>SECRET</b>
Class Capacity Minimum 75 Maximum 125		MOS/NEC	None

Quota Control. EWTGPAC (619) 437-3743 or DSN 577-3743.

Format. This workshop is conducted In residence at EWTGPAC aboard Naval Amphibious Base, Coronado. This course occurs about once a year for the 31st MEU/PHIBRON-11, and once a year for the 11/13/15 MEUs, PHIBRONs 1/3/5/7 and SPMAGTFs.

Purpose. This course is designed for PHIBRON and MEU Commanders and staff, ARG ship Commanders, and MSE/NSE Commanders/OICs, and designated staff. Participants will apply the Rapid Response Planning Process to multiple planning scenarios based on their Mission Essential Tasks (METs) and likely threats from anticipated deployment operating areas in order to create integrated courses of action and to refine unit SOPs.

Scope. One day of work on planning fundamentals is followed by a half-day of discussion/working groups centered around planning considerations for unique ARG/MEU METs and a half-day of discussion on defense of the Amphibious Task Force. The workshop concludes with eight days of R2P2 practical application scenarios with the goal of complete planning for a minimum of four crisis response scenarios, each with a more compressed timeline.

### Prerequisites.

1. See COMTHIRDFLT and IMEF 3502.1 (dated 8 Aug 2017), Enclosure (2) Manning Document for ARG/MEU Staff Planning Primer, and Enclosure (4) Manning Document for ARG/MEU Staff Planning Workshop.
2. All participants must possess a valid SECRET security clearance and must be a United States, Australia, Canada, Great Britain, or New Zealand citizen.
3. Each staff must come to the course with a planning SOP and Information Management Plan that facilitates and standardizes planning (see MCTP 3-30B for baseline understanding and then contact EWTGPAC Staff Planning Division for recommended techniques and procedures).
4. Recommendations: Each staff should be proficient in the Marine Corps Planning Process (MCPP), organized into multiple planning cells (Crisis Action Team, Battle Staff, Mission Planning Cell), possess load plans for amphibious shipping (for ARG/MEU), understand Expeditionary Support to Other Operations/Crisis Response and Limited Contingency Operations planning as outlined in Joint and Service publications. Staffs should be familiar with ARG/MEU Structure, capabilities and limitations, and the policy for MEUs outlined in MCO 3120.13.

Special Equipment.

1. Video projection system, planning spaces, computer equipment with associated software and reproduction support are available at EWTGPAC facilities.

Special Notes.

1. For questions, contact (619) 437-3743.
2. Ensure unit security manager submits a visit request including all attending personnel from each unit to EWTGPAC through DISS or the system of record no later than one week prior to convening of the course. EWTGPAC SMO Code is N630186.
3. Units are required to coordinate their own billeting and transportation.

## Amphibious Warfare Indoctrination (AWI)

CIN K-2G-0037	CID/CDP N30M2T1/9248	MASL Number	P124250
Length 5 days/8 hours per day		Classification	SECRET
Class Capacity Minimum 15 Maximum 32		MOS/NEC	None

**Quota Control.** EWTGPAC Quota Management Office. Annual frequency for the course is eight (8) resident classes. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

**USMC Quota Control.** MARFORPAC (G3) at (808) 477-8850/8787 or DSN 477-8850/8787.

[SMB.MARFORPAC.Formal@USMC.mil](mailto:SMB.MARFORPAC.Formal@USMC.mil) via [MARFORPAC G3 Nomination](#) by way of the student, service member's (S3) training section.

**Format.** Taught in residence at EWTGPAC aboard Naval Amphibious Base, Coronado.

**Purpose.** To provide a comprehensive indoctrination in Amphibious Warfare in order to prepare selected U.S. and Allied Armed Forces, E-5 through O-6, to carry out shipboard and staff assignments.

**Scope.** This course is designed to give a broad background of amphibious knowledge to personnel recently assigned or pending assignment to amphibious ships or staffs. The type of instruction is classroom lecture with a practical exercise, simulation, and comprehensive final examination.

### Prerequisites.

1. Officers and enlisted (E-5 and above) or equivalent civilian personnel whose organizations are involved in amphibious operations.
2. Class will convene at 0730 Monday morning in the Iwo Jima classroom, first deck of building 401 on NAB Coronado. Prospective students must ensure their unit security manager submits a visitor request including all attending personnel from your unit to EWTGPAC through DISS. The SMO Code is N630186. Ensure the course name is indicated as in the "Visit Name" block of the DISS visit request form. Once the request has been submitted, please call the EWTGPAC Security Office at (619) 437-9676 with any questions you may have regarding your security clearance submission.

### Special Notes.

**Secret** Security Clearance Required.

### FAQs.

1. Class location. Personnel attending a resident course will report to Building 401, Iwo Jima Classroom; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0730 on Training Day 1 (TD1). Class starts at 0745. Anticipate leaving NLT 12pm on last class day.

3. Uniform. Navy Working Uniform or Service equivalent.
4. Gear. N/A.
5. Welcome Aboard email. N/A. All info is provided on CANTRAC, MCTIMS or Course Catalog.
6. Orders. Students need to bring printed orders. They will be collected by an instructor at the beginning of class to be stamped (if required) by N1 located in Bldg. 15 across from classroom 8. Stamped orders are returned to students along with Graduation certificates at the end of the course.

## Amphibious Warfare Staff Planning (AWSP)

CIN J-2G-0048	CID/CDP N30KA51/9250	MASL Number	P124251
Length 5 days/8 hours per day		Classification	UNCLAS
Class Capacity Minimum 15 Maximum 32		MOS/NEC	None

**Quota Control.** EWTGPAC Quota Management Office. Annual frequency for the course is ten (10) resident classes. To request seats - in order of precedence: (1) [eNTRS](mailto:eNTRS) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

**USMC Quota Control.** MARFORPAC (G3) at (808) 477-8850/8787 or DSN 477-8850/8787.

**SMB.MARFORPAC.Formal@USMC.mil** via [MARFORPAC G3 Nomination](mailto:MARFORPAC G3 Nomination) by way of the student, service member's (S3) training section.

**Format.** Taught in residence at EWTGPAC aboard Naval Amphibious Base, Coronado.

**Purpose.** To provide Navy and Marine Corps officers, and senior enlisted (E6 and above) with the knowledge and skills required to plan amphibious operations. This training focuses on the tasks performed by officers and senior enlisted assigned to the primary and special staff sections of the Amphibious Ready Group (ARG) and Marine Expeditionary Unit (MEU), respectively.

**Scope.** The course details the six steps in the Marine Corps Planning Process (MCPP) and Navy Planning Process (NPP), providing students with an understanding of the planning framework, preparatory staff activities, and required outputs necessary to successfully plan amphibious operations. It is designed to impart onto students the specific knowledge and skills to effectively serve as part of an ARG/MEU staff. Students will be assigned to an operational planning team and expected to conduct planning using the MCPP/NPP during practical application exercises. The students will utilize a realistic configuration of Navy and Marine Corps assets during practical applications, and apply them to scenarios that are in accordance with likely mission profiles for an ARG/MEU. In addition, students will complete a written examination on the last training day.

### **Prerequisites.**

1. Students **must** be graduates of Amphibious Warfare Indoctrination (AWI) (K-2G-0037). This AWI prerequisite can be waived upon approval from the N71 Division Head if the student has six months experience aboard an ESG/PHIBRON/MEU staff or stationed as ship's company or amphibious platform. Waiver request correspondence sent to [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil) will be forwarded to the decision-making authority.
2. USN commissioned officers and senior enlisted personnel (active or reserve component) currently assigned to/en-route to amphibious ships, PHIBRON staffs, Expeditionary Strike Groups, Construction Battalion Units, NAVBEACHGRU, SPECWARGRU, TACGRU/TACRON, MEUs, Expeditionary Combat Command, officers outbound to PEP tours and any others desiring training on the JOPES

compatible Navy/Marine Corps Planning Process.

3. USMC commissioned officers and senior Staff Noncommissioned Officers (SNCOs) - active or reserve component - from principal and special staffs of a designated MAGTF or Major Subordinate Element (MSE).

Special Notes.

1. Resident students requiring billeting should coordinate with the Navy Gateway Inn at (619) 437-3860.
2. To be best prepared for the course, students should read the publications provided in the links below:
  - a. [MCWP 5-10](http://www.mca-marines.org/files/MCWP%205-1%20MCPP.pdf) (<http://www.mca-marines.org/files/MCWP%205-1%20MCPP.pdf>)
  - b. [NWP 5-01](https://ndls.nwdc.navy.mil/) (<https://ndls.nwdc.navy.mil/>)
  - c. [JP 3-02](http://www.dtic.mil/doctrine/new_pubs/jp3_02.pdf) ([http://www.dtic.mil/doctrine/new\\_pubs/jp3\\_02.pdf](http://www.dtic.mil/doctrine/new_pubs/jp3_02.pdf))

FAQs.

1. Class location. Personnel attending a resident course will report to Building 401, Iwo Jima Classroom; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0730 on Training Day 1 (TD1). Class starts at 0800. Release time on final day is 1100, TD5.
3. Uniform. Navy and Marine Corps Cammies or Navy Working Uniform.
4. Gear. N/A.
5. Welcome Aboard email. N/A. All info is provided on CANTRAC, MCTIMS or Course Catalog.
6. Orders. Students need to bring printed orders. They will be collected by an instructor at the beginning of class to be stamped (if required) by N1 located in Bldg. 15 across from classroom 8.

## Maneuver Warfare Course

CIN K-250-3166	CID/CDP N30RCC1/481X	MASL Number	None
Length 20 days		Classification	<b>SECRET</b>
Class Capacity Minimum 8 Maximum 20		MOS	8713

Quota Control. USMC: Contact MARFORPAC (G-3) at (808) 477- 8850/8787, DSN 315-477-8850/8787, [SMB.MARFORPAC.Formal@USMC.mil](mailto:SMB.MARFORPAC.Formal@USMC.mil) via [MARFORPAC G3 Nomination](#), or via FAX at (808) 477-8780. USMCR: Contact MARFORRES (G-3) at (504) 978-8424 or DSN 678-8414. All others contact Course Manager at (619) 437-0893 or DSN 577-2844/5679/5872.

Format. This course is taught in residence at EWTGPAC aboard Naval Amphibious Base, Coronado. Annual frequency for the course is four (4) resident classes.

Purpose. This course is the intermediate-level, training venue within an operations training continuum that begins at the regional Marine Air Ground Task Force (MAGTF) Integrated Systems Training Center (MISTC) and finishes with the Marine Corps Tactics and Operations Group's (MCTOG) Operations and Tactics Instructor-Chief (OTI-C) Course. This course provides intermediate-level instruction for Staff Non-commissioned Officers (SNCOs) assigned to a company's Headquarters section, as well as a unit's operation section - filling an education gap specifically for the Company Operations Chief, Company Gunnery Sergeant, and Assistant Battalion Operations Chief within the Ground Combat Element.

Scope. The course provides a doctrinal understanding of the warfighting functions, integrated across the competition continuum and five domains of warfare. It includes instruction in the following areas: The seven warfighting functions, Information Management, Signature Management, Naval and Emerging concepts, Amphibious Operations, Intelligence Preparation of the Battle Field (IPB), Digital C2 Systems, Unit Training Course- Planner, focusing on real-world training exercises and their unique planning considerations at the infantry battalion level. Additionally, students will spend one week integrated with the Navy during the Amphibious Warfare Staff Planning course (CID: N30KA51), using a realistic configuration of Navy and Marine Corps assets during practical application of the Marine Corps Planning Process, explicitly applying them to scenarios that are likely mission profiles for an ARG/MEU.

### Prerequisites.

1. Rank: Staff Sergeant, Gunnery Sergeant, Master Sergeant.
2. MOS: 0231, 0241, 0261, 0311, 0313, 0321, 0331, 0341, 0352, 0363, 0369, 0393, ,0411, 0491, 0811, 0848, 0861, 0871, 1371, & 1833.
3. Complete the MAGTF MISTC Watch Officer/Watch Chief Course.
4. Submit a completed [Command Screening Checklist](#), enclosure (4), pages 152 - 153.
5. One year, time-in-service remaining upon graduation.
6. Current or interim SECRET clearance.
7. Complete the online-learning-phase portion prior to reporting for the course.

Special Notes.

1. Upon successful MCTIMS registration, a DISS visit request will need to be submitted. Please ensure that your unit S-2 or security manager submits a DISS request to EWTGPAC - SMO Code: **N630186**. Please refer all visit request and security-clearance related questions, to the EWTGPAC Assistant Security Manager at (619) 437-9676 or DSN 577-9676.
2. It is necessary to advise EWTGPAC of the attendee's name, EDIPI, rank, and security clearance level NLT twenty working days prior to the beginning of the course. This will allow sufficient time to prepare student materials.
3. The course coordinator submits a roster of graduates to HQMC who will enter the MOS into the Manpower Management System (MMS). The Reserve Support Officer will submit a roster of Reserve graduates to CG, Marine Forces Reserve who then enters the MOS into the Reserve Manpower Management Pay System (REMMPS). Completion certificates for all prerequisite training will be collected on the first day of class.
4. Basing. Adequate government quarters, as defined in the current OPNAVINST 11103.1 (Series), are NOT available. Basing can be obtained by contacting the Navy Gateway Inn at (619) 437-3860, DSN 577-3860, or by using [www.dodlodging.net](http://www.dodlodging.net). Government messing facility (Naval Base Coronado Galley) is available for officers and enlisted personnel.
5. For additional information contact the Course Chief at (619) 437-0893(DSN 577-2844/5679/5872).
6. American Council on Education college credit recommendation: In the lower-division, (LD) baccalaureate/associate degree category, 2 semester hours in navigation. Credit recommendations appear on the graduate's Joint Service Transcript (JST).

FAQs.

1. Class location. Personnel attending will report to Building 401, Room 151; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. 0800 on the first day of training. It is advised to plan for an arrival time of 0730 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Woodland MARPAT.
4. Gear. Note taking gear, permanent bold map pens.
5. Welcome Aboard email. Course Manager sends out approximately 30 days prior to course convening.
6. Orders. Orders are delivered to and endorsed by N1.

## Rapid Response Planning Process (R2P2) Primer

CIN S-062-0500

CID/CDP None/05HS  
MTT None/07NJ

Length 5 days/8 hours per day

Class Capacity Minimum 10 Maximum 40

MASL Number  
Classification  
MOS/NECP124004  
**SECRET**  
None

**Quota Control.** None. Course conducted for deploying units prior to D-180. Unit operations officers should coordinate by contacting EWTGPAC staff at (619) 437-3743 (DSN 577-2844/5679/5872), no later than three months prior to desired course date.

**Format.** This course is taught at EWTGPAC or as a Mobile Training Team for deploying Amphibious Squadron (PHIBRON) staffs, Marine Expeditionary Unit (MEU) staffs, Combat Logistics Battalions (CLBs), Aviation Combat Elements (ACEs), and Battalion Landing Teams (BLTs).

**Purpose.** The R2P2 Primer is a mandatory event for elements of the Amphibious Ready Group and elective for elements of the Marine Expeditionary Unit. This course prepares PHIBRONs, Naval Support Element (NSE) personnel (Tactical Air Control Squadron, Fleet Surgical Teams, Naval Beach Group), ARG ships, and selected MAGTF personnel to participate in the ARG/MEU Staff Planning Workshop (AMSPW). This course provides instruction and training at the basic level in the Marine Corps Planning Process (MCPP), R2P2, Standard Operating Procedure (SOP) development, and Battle Rhythm considerations.

**Scope.** The course is conducted in a classroom setting and focuses on the function of the various staffs during the planning process of an expeditionary operation. The staffs receive instruction on MCPP and R2P2. The class is then broken down into “staffs” in order to demonstrate understanding with a practical exercise designed to gradually work through the deliberate and rapid planning processes. The practical exercises are then briefed from Problem Framing through the Confirmation Brief by the student staffs.

### Prerequisites.

1. Staffs requesting training should be familiar with Marine Corps Warfighting Publication (MCWP) 5-10 - Marine Corps Planning, Navy Warfighting Publication (NWP) 5-01 - Navy Planning, and Joint Publication 3-02 - Amphibious Operations.
2. Please reference COMTHIRDFLT Instruction and CG I MEF Order (COMTHIRDFLTINST/I MEFO) 3502.1 (Dated 8 Aug 2017) for recommended/required attendance for successful completion of the AMSP Primer.

### Special Equipment.

1. Video projection system, computer equipment, Microsoft PowerPoint software, and reproduction support for MTTs.

Special Notes.

1. R2P2 Primer may be taught to US students in a classified format in order to reinforce the principles of R2P2, with real world application and influence. If so, ensure unit security manager submits a DISS visit request including all attending personnel from each unit to EWTGPAC no later than three weeks prior to convening of the course. EWTGPAC SMO Code is N630186.

## **N71 Amphibious Warfare Staff Planning Division**

### **N714 Amphibious & Mobility Operations Branch**

**Organization.** The Amphibious & Mobility Operations Branch consists of an inter-service team of qualified instructors that provide subject matter expertise across a wide range of mobility and ship-to-shore operations in order to plan, prepare and execute amphibious operations and manage the flow of forces via air, ground, or surface assets.

**General Information.** Provides doctrinally relevant instruction pertaining to the management and execution of ship-to-shore operations and deployment systems integration, doctrinally relevant instruction pertaining to the management and execution of ship-to-shore operations, and deployment systems integration. The diverse and capable team of joint service personnel consisting of Marine, Navy, and Army personnel provides a variety of knowledge and experience that can tailor courses to meet the needs of the Fleet Operating Forces. Taught in residence and via Mobile Training Teams (MTT) to ensure the operating units are trained whether they are home or abroad.

**Course Coordination.** Course Managers can be contacted for detailed information concerning course content or matters requiring subject area expertise at a phone number below, or at [EWTGPAC\\_N314@navy.mil](mailto:EWTGPAC_N314@navy.mil).

Length 5 days/8 hours per day		Classification	UNCLAS
Class Capacity Minimum 10 Maximum 25		MOS/NEC	None

Quota Control. MARFORPAC (G3) at (808) 477-8850/8787, DSN 315-4778850/8787, or [SMB.MARFORPAC.Formal@usmc.mil](mailto:SMB.MARFORPAC.Formal@usmc.mil) via [MARFORPAC G3 Nomination](mailto:MARFORPAC G3 Nomination) by way of the student, service member's (S3) training section. Funding for student orders (as applicable) for West Coast and WESTPAC units is requested through MARFORPAC (G3) as well.

USN Students. EWTGPAC Quota Management Office. To request seats - in order of precedence: (1) [eNTRS](mailto:eNTRS) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. This course is taught in residence at EWTGPAC. Annual frequency for the course is two (2) resident classes..

Purpose. This course indoctrinates prospective and current CCO/A-s, cargo variant LSD 1st Lieutenants, and TEO/A-s on their roles and responsibilities while assigned to a ship or Amphibious Squadron.

Scope. This course provides instruction on the following:

1. Amphibious Squadron and Naval Support Element Structure
2. Amphibious Ship's Company
3. Naval Customs & AMW Operations overview
4. Marine Corps Administration while attached to a Navy Command
5. Instruction on Publications and References that are Applicable to the Billet
6. Naval Messages
7. Landing Force Operational Reserve Material
8. TEO/A Roles and Responsibilities
9. CCO/A Roles and Responsibilities
10. Green Space Management
11. Flight Deck and Well Deck Operations
12. Roles and Responsibilities during ship-to-shore movement
13. Customs and Agriculture Inspection Requirements
14. Merging all of the requirements.

### Prerequisites.

1. Marine E6 to O3 with the MOS 0431, 0481, 0491, 0430, and 0402.

2. Navy Lieutenants assigned to LSD platforms.
3. Personnel must be a U.S. citizen and be eligible for a secret clearance.
4. Marines with orders to Combat Cargo Officer duty or assigned to a Marine Expeditionary Unit take priority. All other requests will be taken on a case-by-case basis.

Special Notes.

1. Billeting and messing will not be provided.

FAQs.

1. Class location. Personnel attending will typically report to Building 401, Iwo Jima Classroom or Building 15, Classroom 8; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. 0800 M-F. It is advised to plan for an arrival time of 0730 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. MARPAT, TYPE-III Utilities, Flight Suit, TPOC, Business Casual for civilians.
4. Gear. Bring work or personal laptop and note taking gear.
5. Welcome Aboard email. N/A.
6. Orders. Students' orders will be collected on first day of class, stamped by EWTGPAC N1 and returned prior to graduation.

## Expeditionary Deployment Systems (EDS)

CIN K-551-3554	CID/CDP N30L8P1/482G MTT N30L8PM/646P	MASL Number Classification MOS/NEC	None UNCLAS None
Length 10 days/8 hours per day			
Class Capacity Minimum 10 Maximum 20			

Quota Control. Using command/TECOM (MCTIMS), for the resident course, requesting units should have student name(s) entered in MCTIMS. Access to MCTIMS is controlled by the unit's training section. It must be understood that entering a student's name in MCTIMS does not secure the appropriation data to fund student orders. MCTIMS only secures a seat for the student.

USN Students. EWTGPAC Quota Management Office. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 522-7637 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. Taught in residence at EWTGPAC, Naval Amphibious Base, Coronado CA or as a Mobile Training Team at both CONUS and OCONUS locations.

Purpose. Students learn to use the most current version of Integrated Computerized Deployment System (ICODES), sub applications, Sea Service Deployment Module (SSDM), Conveyance Builder (CB) and Single Load Planner (SLP) to meet various Department of Defense Agencies and Services requirements to forecast, procure and employ various modes of transportation. Logistics Automated Information System (LOGAIS) training and education will focus on interface processes within Force Deployment, Planning and Execution (FDP&E) for strategic mobility as well as the steps involved within Planning Embarkation Rehearsal and Movement and Action (PERMA) to support amphibious operations.

### Scope.

1. Topics and instruction emphasize on the functionality of the systems and associated hardware as they relate to;
  - a. System settings.
  - b. Reference data.
  - c. Force deployment requirements sourcing.
  - d. Interface with other mobility and deployment planning applications.
  - e. Supply and equipment associations.
  - f. Deployment planning and forecasting.
  - g. Movement Manager, to include creation of multiple movements, mission packages and assignment to carriers.
  - h. Generation of applicable transportation documentation for air and surface movements.
  - j. Setup and use of RFID hardware to include interrogators and tags. This is Department of Defense mandated, and interfaces with the Integrated Data Environment and Global Transportation Network Convergence (IGC) to provide ITV of supplies and equipment to subordinate and major commands.

- k. Marshalling operations.
  - l. “Templating” of supplies and equipment on digitized ship-deck drawings of U.S. Navy amphibious ships, and landing craft within SLP.
  - m. Data transfer between Interfacing AIT software and ICODES.
  - n. Amphibious load planning documentation Naval Support Element Augmentation/ Organization for Embarkation Assignment to Shipping (NSEA/OEAS).
2. Student mastery of the course is evaluated on a mastery/non-mastery basis. Therefore, students must master 80% of all learning objectives to successfully complete the course. Student progress is evaluated through knowledge checks. Evaluations are completed through performance-based examinations.

**Prerequisites.**

- 1. This training meets 2000 level requirements per the T&R Manual and therefore students must possess basic 1000 level LOGAIS knowledge/skills prior to attending.
- 2. Students will be enrolled on Training Day 1 into MarineNet Course (N30L8PM) to ensure basic knowledge/skills have been attained.
- 3. This course is offered to all personnel assigned to a billet requiring the use of ICODES.
- 4. U.S. Marine Corps 0441 Logistics Marines; Marines serving within a billet required to support embarkation duties.
- 5. U.S. Navy and U.S. Coast Guardsmen involved with supporting embarkation duties.
- 6. Security Clearance. Secret.
- 7. Minimum GT Score: 100.

**Special Equipment.**

- 1. To optimize classroom time and provide the student with reliable learning tools during this course, the Students will be required to bring their own Wi-Fi enabled laptops and tree function mouse. The instructors will provide (2) Wi-Fi pucks for the students to utilize.

**Special Notes.**

- 1. Admin Support. EWTGPAC is not staffed to assist students with funding, cash advances, or modification of orders. The Admin Section may be able to assist in other areas. Due to the location of Naval Amphibious Base Coronado, students must be fully funded prior to arrival, and orders must accurately describe entitlements. Billeting arrangements must be made prior to arrival. Arrangements can be made by contacting the billeting desk at (619) 437-3860 or DSN 577-3860. Unit Admin sections must ensure the student has the means to pay for all authorized expenses (billetting, rental car, etc.) while attending the course (government credit card, cash advance, etc.).
- 2. American Council on Education college credit recommendation: 3 semester hours in logistics (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).

**FAQs.**

- 1. Class location. Personnel attending will typically report to Building 15, Classroom 8; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.

2. Report time. NLT 0730. It is advised to plan for an arrival time of 0730 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Utility uniform.
4. Gear. \*See Special Equipment (above).
5. Welcome Aboard email. Students receive reporting instructions (1) month prior to course start date.
6. Orders. Orders will be stamped (if required) by N1 located in Bldg. 15 across from Classroom 8 after checking in with the course instructor.

## Joint Aircraft Load Planner Course (JALPC)

*formerly Air Mobility Command (AMC) Affiliation Course*

CIN K-8A-3558	CID/CDP N30680M/482H	MASL Number	None
Length 9 days/8 hours per day		Classification	UNCLAS
Class Capacity Minimum 15 Maximum 30		MOS/NEC	None

**Quota Control.** If not with hosting command, contact EWTGPAC Quota Management Office at [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil) or (619) 437-5872/5679/2844 to determine course location, point of contact, and registration procedures. Annual frequency for the course is twelve (12) Mobile Training Teams.

**USN Students.** Request seats via [eNTRS](#) by way of their Training Officers/Petty Officers. **Attention Training Officers/Training Petty Officers:** Provide the student's email address in the **STUDENT AND/OR ADDITIONAL EMAIL** field in eNTRS. Reporting Instructions for the course will be emailed to all registered students NET 30 days prior to Class Convening (CLCVN) date. If not received within 5 days of CLCVN, email [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil) or call (619) 437-5679/2844/5872.

**USMC Students.** MARFORPAC (G3) at (808) 477-8850/8787, DSN 315-477-8850/8787, or [SMB.MARFORPAC.Formal@usmc.mil](mailto:SMB.MARFORPAC.Formal@usmc.mil) via [MARFORPAC G3 Nomination](#) by way of the student, service member's (S3) training section.

**Format.** Taught in residence at EWTGPAC, Naval Amphibious Base, Coronado CA or as a Mobile Training Team at both CONUS and OCONUS locations.

**Purpose.** This course is designed to train movement/embarkation personnel in the doctrine, principles, and techniques of air movement planning. Upon successful completion, personnel will receive certification via AMC Form 9 Airlift Load Plan Certification. Graduates will receive aircraft load planner certification valid for 24 months. The AF Form 1256 and the JALPC Form 9 will serve as source documentation.

### Scope.

1. The Joint Aircraft Load Planning Course prepares selected joint, interagency, intergovernmental, and multinational partners to develop load plans in Integrated Computerized Deployment System (ICODES) to improve overall joint interoperability, reduce frustrated cargo, increase DOD's rapid global mobility capabilities, and agile combat employment initiative. Graduates of the JALPC are certified to produce an aircraft load plan for the C-130J/J, C-17, and C-5M aircraft.
2. The course covers deploying unit responsibilities, cargo build-up, and aircraft load planning. Students learn how to use Single Load Planner to build aircraft load plans.

3. Student mastery of the course is evaluated on a mastery/non-mastery basis; therefore, students must master 80% of the learning objective to successfully complete the course. Evaluation is completed through performance-based examinations.

Prerequisites.

1. For United States Marines within the 0441, 0491, 0402, and 0430 MOS's, this course is offered to personnel within the paygrades of E2 to E8, WO1 to CWO3, and O1 to O4.
2. For United States Marines outside of the above listed MOS's and for United States Navy personnel, this course is offered to personnel currently serving in, or with potential to serve in, a billet that deals with aircraft load planning. These personnel must be within the paygrades of E3 to E8, WO1 to CWO3, or O1 to O3. Previous embarkation experience is highly recommended.
3. For personnel outside of the United States Marine Corps and United States Navy, this course is offered to joint service members in an air load planning function with a paygrade of E4 and up, O1 to O3, and their civilian counterparts. This includes Unit Movement Officers and Division Transport Officers.
4. The Equipment Preparation Introductory Course must be completed prior to check-in. This course can be found at <https://lms-jets.cce.af.mil/moodle/>. A walkthrough can be obtained through EWTGPAC, if required.
5. Prospective students must establish an active Integrated Computerized Deployment System (ICODES) account. This account can be requested at <https://etateams.transport.mil/teams/login>.
6. Potential students must also register their CAC/ID for the Air Transportability Test Loading Activity (ATTLA) account. This account can be registered on the ATTLA SharePoint site at <https://intelshare.intelink.gov/my.policy>.
7. Students must have a valid CAC.

Special Equipment.

1. This course is conducted on standalone laptops provided by the mobile training team. Provided computers are specifically configured to process ICODES.
2. Students are highly encouraged to bring gloves and a computer mouse.
3. The hosting unit must provide a classroom large enough for 32 personnel and an adequate number of tables, chairs, and outlets for computer chargers. Additionally, the hosting unit must provide a projector or TV large enough for all students to see. The hosting unit must provide printing capability for the instructor staff.
4. The hosting unit is also responsible to provide materials, equipment, and an area to facilitate the cargo and equipment preparation practical application portion of the class. At a minimum, the hosting unit must provide the following:
  - a. Two 463L air pallets.
  - b. Three pieces of dunnage per pallet provided.
  - c. One set of 463L air pallet nets (two side nets and one top net.)
  - d. Seven CGU-1/B cargo tie down straps.
  - e. Cargo/equipment to be palletized (typically eight PALCONS, JMICS, or triwalls.)
  - f. One quadcon/tricon/Equivalent.

- g. Ten MB-1 chains and devices.
  - h. Two portable wheel scales.
  - i. One vehicle to be used for center of balance.
5. If hosting unit cannot provide the above listed training resources, coordination with the instructor staff is required so that further coordination for the training resources can be made.

**Special Notes.**

1. This course is academically challenging and demanding. Students should be relieved of all additional military duties during the course.
2. This course is taught as a MTT and is unit-funded for any potential students traveling to the MTT location.
3. Uniform. Host unit uniform of the day.
4. The instructor staff will disseminate detailed reporting instructions 30 days prior to the Class Convening (CLCVN) date to all registered students, as well as to the hosting unit.
5. It is highly encouraged that students understand the basic functionalities of ICODES.
6. American Council on Education college credit recommendation: In the lower-division, baccalaureate/associate degree category, 3 semester hours in operations planning (3/19). Credit recommendations appear on the graduate's Joint Service Transcript (JST).

**\*Per the Executive Order 14169, titled “Reevaluating and Realigning United States Foreign Aid,” signed on 20 January 2025, there is a pause in U.S. Foreign Aid – to include all JHOC training. In response, EWTGPAC will be hosting the Humanitarian Assistance Response Training-Disaster (HART-D) course, taught by the Center For Excellence-Disaster Management (CFE-DM) .**

**Joint Humanitarian Operations Course (JHOC)** (\*Planned replacement with HART-D in 2QFY26). [Click here for more information](#) or go to page 158.

CIN K-2G-0223	CID/CDP	None/07KA	MASL Number	None
Length 2 days/8 hours per day			Classification	UNCLAS
Class Capacity	Minimum 25	Maximum 45	MOS/NEC	None

Quota Control. EWTGPAC Quota Management Office. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. Two days of classroom instruction consisting of informal lecture and practical application at EWTGPAC aboard Naval Amphibious Base, Coronado. The course is two days of certified training from the U.S. Agency for International Development (USAID)/ Bureau of Humanitarian Assistance (BHA) in their Joint Humanitarian Operations Course. This course is not available as an MTT. Annual frequency for the course is four (4) resident classes.

Purpose. To enable commanders and staff planners to confidently engage the resources, agencies and methods to rapidly act in support of JHOC operations. In partnership with USAID, this course is designed to provide deploying staffs with instruction on USAID structure, purpose, and operational response capabilities during overseas disaster response operations. The course will identify areas for coordination and cooperation between USAID and the U.S. military, other governmental, international and non-governmental organizations that have a role in these operations, and enhance understanding of roles and responsibilities as they relate to USAID and the U.S. military.

Scope. Students will receive the JHOC curriculum and presentations on DOD Command Elements/Relationships, COCOM processes, resources and capabilities, and foreign disaster relief.

Prerequisites. None.

Special Notes.

1. Officers and Staff Non-Commissioned Officers assigned to deploying Marine Expeditionary Units (MEU), Amphibious Squadron (PHIBRON) Staffs, Expeditionary Strike Group (ESG), Carrier Strike Group (CSG) and Maritime Sealift Command (MSC) Staffs. This course of instruction is intended for commanders, staff planners, and personnel assigned to forward command elements from ESGs, CSGs, PHIBRONs, MEUs, and those that independent deploy who may potentially be assigned to JHOC missions.

## Joint Logistics Over-The-Shore (JLOTS) Staff Planning

CIN S-8A-0004	CID/CDP L421/01KD MTT None/4761	MASL Number Classification MOS/NEC	P151001 UNCLAS None
Length	3 days/8 hours per day		
Class Capacity	Minimum 10 Maximum 30		

[Quota Control](#). EWTGPAC Quota Management Office. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DODID (aka EDIPI) is required.

[USMC Quota Control](#). MARFORPAC (G3) at (808) 477-8850/8787 (DSN 315-477-8850/8787). [SMB.MARFORPAC.Formal@usmc.mil](mailto:SMB.MARFORPAC.Formal@usmc.mil) via [MARFORPAC G3 Nomination](#) by way of the student, service member's (S3) training section.

[Format](#). Course is taught in residence at EWTGPAC aboard Naval Amphibious Base Coronado or as a Mobile Training Team (MTT) upon request from supported units. After normal working hours (1600-0700), on the weekend and holidays students aboard EWTGPAC shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays in checking in for class. Annual frequency for the course is four (4) resident classes and one (1) unit funded MTTs.

[Purpose](#). The purpose of this course is to instruct staff planners, both officers (O-2 to O-6) and senior enlisted personnel (E-6 to E-9), in conducting detailed JLOTS operations planning.

[Scope](#). The JLOTS course includes three days of classroom instruction in the planning and execution of JLOTS Operations. Instructor led discussion includes: (1) Theory, (2) Task Organization, (3) Prepositioning, (4) Anchorage and Discharge, (5) Lighterage Operations, (6) Beach and Port Operations, (7) Transportation, Marshalling, & Distribution, (8) the Offshore Petroleum Discharge System, (9) Communications, and (10) Force Protection. Each day of instruction culminates in a practical exercise in which students demonstrate their knowledge and ability to develop task organization for Theater Opening/Port Opening and the Concept of Operations for JLOTS. The course concludes with a final examination. All instruction and practical exercises are conducted in accordance with JLOTS doctrine per Joint Publication 4-01.6.

[Prerequisites](#). None.

### [Special Notes](#).

1. **Departure flights must not be made prior to 1800 hours on the last day of class.** Make travel arrangements accordingly. Students reporting with departure flights prior to 1800 on the last day of the course and who cannot arrange a later departure flight will be dropped.

FAQs.

1. Class location. Class location changes every class, but will be stated in the Welcome Aboard email. Personnel attending a resident course will typically report to either Building 401 or Building 15; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. Find classroom NLT 0745 and class starts at 0800.
3. Uniform. Uniform of the day.
4. Gear. Students need to bring personal computer with downloaded material that is found in the welcome aboard email or the following link  
<https://elearning.marinenet.USMC.mil/moodle/course/view.php?id=4608>.
5. Welcome Aboard email. Students receive reporting instructions at least one week before class start date.
6. Orders. Students need to bring printed orders to be stamped (if required) by N1 located in Bldg. 15 across from classroom 8 after checking in with the course instructor.

## Maritime Prepositioning Force (MPF) Staff Planning Course

CIN K-2E-3119	CID/CDP N30L8Q1/377G MTT N30L8QM/645X	MASL Number Classification MOS/NEC	P124112 UNCLAS None
Length	5 days/8 hours per day		
Class Capacity	Minimum 10 Maximum 40		

**Quota Control.** USMC Units – For resident courses at EWTGPAC in San Diego, CA, requesting units should have student name(s) entered in Marine Corps Training Information Management System (MCTIMS). Access to MCTIMS is controlled by the unit's training section. Entering a student's name in MCTIMS does not secure the appropriation data to fund student orders. Registration in MCTIMS only secures a seat for the student. To obtain appropriation data, West Coast and WESTPAC units must coordinate with MARFORPAC (G3) at (808) 477-5801, DSN 315-477-5801, or [smb.marforpac.formal@usmc.mil](mailto:smb.marforpac.formal@usmc.mil) via [MARFORPAC G3 Nomination](#) through their respective MEFs. East Coast units must coordinate with MARFORCOM through II MEF. MARFORRES personnel must obtain appropriation data/quota assignment from MARFORRES.

**USN Students.** To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

All other services who would like to attend a resident course contact EWTGPAC at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872).

All quotas for Mobile Training Teams (MTT) contact the Course Supervisor at (619) 437-2784 or DSN 577-2606.

**Format.** This course is taught in residence at EWTGPAC and via Mobile Training Team at the requesting unit's location. Annual frequency for the course is 5 resident classes and 4 MTTs.

**Purpose.** To train students in the doctrinal foundation of Maritime Prepositioning Force operations (MPF) in order to produce graduates that can contribute to MPF staff planning.

**Scope.** This is a five-day course that discusses the five phases of a MPF operation, the MPF maintenance cycle, and relationships between commands participating in a MPF operation. The first three days of instruction include informal lecture with PowerPoint media, guided discussions, and scenario-based training in small working groups. Students will complete a practical application and written examination on the last two days of the course.

### Prerequisites.

1. E6 and above and officers of all service branches are eligible.
2. Highly recommended for Staff NCOs/CPOs, officers, and equivalent civilian or licensed Merchant Marine personnel assigned to planning and pertinent staff positions.
3. E5s may be permitted to attend if it directly relates to their job description and it is approved by the Course Supervisor.

Special Equipment.

1. Projection system (i.e., Proxima, Epson, etc.).
2. Computer with audio capability. Additional speakers if necessary.
3. For MTTs outside of the scheduled/TEEP'd 4x III MEF MTTs, the requesting unit will provide a classroom facility with items listed in numbers 1 and 2. Additionally, requesting unit will provide student guides.
4. Students are highly encouraged to bring a personal or work laptop in order to complete the practical exercise.

Special Notes.

1. In order to comply with reporting requirements, student orders must include the respective Unit Identification Code (UIC). Whether resident or MTT, students should be provided orders to prevent conflicting job-related commitments. Navy students use UIC 30903, USMC students use RUC 56001 for EWTGPAC resident courses.
2. Read Ahead. Students are highly encouraged to read MCTP 13-10D/NTTP 3-02.3M, *Maritime Prepositioning Force Operations* prior to attending. Uniform. Resident – Camouflage utilities or service equivalent; MTT – determined by the requesting unit.
3. Students should not book departure flights before 1500 on the final day of the course.
4. The MPFSP Course Manager reserves the right to administratively drop any student who misses 2 or more consecutive hours of classroom instruction time.
5. It is not recommended for 0401 (untrained USMC Logistics Officers) to attend the MPFSP Course. Please contact the MPFSP Course Manager with any questions or concerns.

FAQs.

1. Class location. Class location changes every class, but will be stated in the Welcome Aboard email. Personnel attending a resident course will typically report to either Building 401, Iwo Jima Classroom or Building 15, Classroom 2; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0745. Class starts at 0800.
3. Uniform. Woodland MARPATs or NWU Type IIIs.
4. Gear. Laptops required. Students need to bring personal computer with downloaded material that is found in the welcome aboard email prior to convening.
5. Welcome Aboard email. Students receive reporting instructions at least one week before class start date.
6. Orders. Students need to bring printed orders. They will be collected by an instructor to be stamped (if required) by N1 located in Bldg. 15 across from Classroom 8 and will be re-issued on graduation day with stamps.

## **N72 International Training Division**

**Organization.** The International Training Division is responsible for all international student security assistance procedures. International students will receive indoctrination and orientation prior to commencement of their respective course. In addition to the formal courses of instruction, during an international military students' time at EWTGPAC, the goal is to meet the following two security assistance training program objectives: Promote U.S. military rapport with other countries' armed forces and promote a better understanding of the United States and its people.

**General Information.** The International Training Division provides logistic oversight and support for all international students. Training is conducted in accordance with regulations set by the Department of State and the Defense Security Cooperation Agency. The International Training Division manages training of a ten-week International Senior Officer Amphibious Planning course and a five-week International Coalition Amphibious Staff Planning Course annually. In addition to these two international-only courses, international military students are able to attend thirteen other resident courses provided at EWTGPAC.

**Course Coordination.** The International Office can be contacted at the following numbers for detailed information concerning course content or schedule.

<u>AREA</u>	<u>DSN</u>	<u>COMMERCIAL</u>

## International Coalition Amphibious Staff Planning

CIN J-2G-0222	CID/CDP None/05YR	MASL Number	P171008
Length 5 weeks		Classification	UNCLAS
Class Capacity Minimum 4 Maximum 12		MOS/NEC	None

Quota Control. NETSAFA Pensacola, FL - (850) 452-2900 or DSN 922-2900.

Format. This course is taught in residence at EWTGPAC. Annual frequency for the course is one (1) resident class.

Purpose. To provide junior international staff officers with an understanding of joint Navy and Marine Expeditionary Warfare Force concepts and the procedures required for planning expeditionary warfare operations.

Scope. The course is designed to develop Junior Officers culturally and intellectually through unique experiences in the classroom and local area. Training consists of Amphibious Warfare Indoctrination, Amphibious Warfare Staff Planning, Fire Support Coordination, and executive education regarding Civil Military-Relations and Military Strategy. Students will have the opportunity to tour San Diego military bases for a closer look at amphibious warfare platforms and equipment. They will also experience US culture through a robust field studies program to include:

1. Human Rights
2. Diversity and American Life
3. U.S. Government Institutions
4. Political Processes
5. The Judicial System
6. The Free Market System
7. Education
8. Health and Human Services
9. Media
10. International Peace and Security
11. Law of War

### Prerequisites.

1. Must be an Officer in the rank of O1 through O4.
2. Must have a minimum English Comprehension Level (ECL) of 70.
3. Waivers may be granted on a case-by-case basis.

### Special Notes.

1. BOQ berthing will be on the basis of one person per room. Long distance telephone service is provided at the student's cost. This course is fast paced, covers a wide variety of subjects and receives high visibility in the community. Students should be carefully screened for high standards of academic motivation and personal behavior.

2. The course of instruction is doctrine based and an advanced review of Joint Publication 3-02 Amphibious Operations, Marine Corps Warfighting Publication 5-1 (Marine Corps Planning Process), Navy Tactics, Techniques and Procedures 3-02.1 Ship-to-Shore movement.

## International Senior Officer Amphibious Planning

Quota Control. NETSAFA Pensacola, FL - (850) 452-2900 or DSN 922-2900.

Format. This course is taught in residence at EWTGPAC. Annual frequency for the course is one (1) resident class.

Purpose. To provide senior international officers with an understanding of joint Navy and Marine Expeditionary Warfare force concepts and procedures required for planning amphibious warfare operations. The course includes introductory instruction in both naval and landing force expeditionary warfare organizations, doctrine, equipment, communications, employment of supporting arms, and logistic support. Follow-on instruction is then provided in joint expeditionary warfare planning concepts and procedures, historical case studies, maritime prepositioning, and foreign humanitarian assistance.

Scope. The course is designed to give officers a graduate level understanding of amphibious warfare. Training consists of Amphibious Warfare Indoctrination, Amphibious Warfare Staff Planning, Fire Support Coordination and Amphibious Air Operations. Students will have the opportunity to tour San Diego military bases for the opportunity to observe amphibious vessels and equipment as well as interact with US Sailors. Students will also travel to various US cities to receive a broader look into US Culture and institutions that support democracy in conjunction with the robust field studies program directed by the Department of Defense to include:

- 1. Human Rights
- 2. Diversity and American Life
- 3. U.S. Government Institutions
- 4. Political Processes
- 5. The Judicial System
- 6. The Free Market System
- 7. Education
- 8. Health and Human Services
- 9. Media
- 10. International Peace and Security
- 11. Law of War

### Prerequisites.

1. Must be an Officer, Lieutenant Commander (O-4) through Captain (O-6), or equivalent, in the naval forces, and Major through Colonel in the ground, other services, and air forces.
2. Must have a minimum English Comprehension Level (ECL) of 70. Waivers may be granted on a case-by-case basis.

### Special Notes.

1. BOQ berthing will be on the basis of one person per room. Long distance telephone service is provided at the student's cost. This course is fast paced, and covers a wide variety of subjects and receives high visibility in the community. Students should be carefully screened for high standards of academic motivation and personal behavior.

2. The course of instruction is doctrine-based and an advanced review of Joint Publication 3-02 Amphibious Operations, Marine Corps Warfighting Publication 5-1 (Marine Corps Planning Process) and Navy tactics, techniques and procedures 3-02.1 Ship-to-Shore movement.

## N73 Expeditionary Fires Division

Organization. The Expeditionary Fires Division consists of an inter-service team of instructors possessing a broad base of expertise relative to the doctrine, tactics, and techniques of providing fire support.

General Information. The Fires Division is organized into two branches that provide training in Fire Support and Naval Surface Fire Support. Through doctrinal classroom instruction, staff planning exercises, and practical application periods utilizing the Indoor Simulated Marksmanship Trainer Enhanced (ISMT-E) or Joint Expeditionary Warfare Laboratory (JEWL) facility as well as live fire exercises, the students receive the maximum practical application possible. The Expeditionary Fires Division provides in-depth training intended to enhance the professionalism and proficiency of individuals assigned to Fires and/or Information staff billets within the Fleet Command of Fleet Marine Force.

1. Fire Support Branch. This branch is responsible for conducting the Company Fire Support Team Course, Fire Support Coordination Course, Fire Support Coordinator Development Course, Littoral Targeting and Fires Course, and Marine Air-Ground Task Force Fires Course. In addition, they conduct the Supporting Arms Coordination Center Team Training and Expeditionary Strike Group (ESG)/Marine Expeditionary Unit (MEU) live-fire Supporting Arms Coordination and Expeditionary Fire Exercises (SACEX/EFEX). The Fire Support Branch supports Pre-deployment Training Program / Fleet Response Training Program events through focused mentorship and assessments of fire support command and control agencies both afloat and ashore.
2. Naval Surface Fire Support Branch. This branch provides training in various aspects of Naval Gunfire Support in formal courses and as a Mobile Training Team (MTT). Responsible for Naval Gunfire Fire Support Ship Team Trainer (MK-86, MK-34 and NFCs), and the Naval Gunfire Liaison Officer Course. The Naval Surface Fire Support Branch supports Fleet Response Training Program events through focused mentorship and assessments of fire support command and control agencies as directed by Commander, Naval Surface Forces Pacific.

Course Coordination. Course Managers can be contacted for detailed information concerning course content or matters requiring subject area expertise.

<u>AREA</u>	<u>DSN</u>	<u>COMMERCIAL</u>
Fire Support Branch	577-2184	(619) 437-2184
Naval Surface Fire Support Branch	577-3259/3741	(619) 437-3259/3741

## Company Fire Support Team Course

CIN TBD	CID/CDP TBD	MASL Number	None
Length 5 days/8 hours per day		Classification	UNCLAS
Class Capacity Minimum 12 / Maximum 24		MOS/NEC	None

Quota Control. EWTGPAC Fire Support Branch at (619) 437-2184/3299.

Format. In residence at EWTGPAC aboard Naval Amphibious Base, Coronado. Annual frequency for the course is six (6) iterations.

Purpose. To provide U. S. Marine Corps personnel with the skills needed to plan, coordinate and execute kinetic effects as part of a Company Fire Support Team in a Rifle Company or LAR Company. The course achieves this purpose by instructing doctrine pertinent to the company fire support team, providing a collective training environment, and imparting training techniques to FiST leadership.

Scope. The course encompasses the doctrine, tactics, techniques, and procedures for the planning, coordination, and execution of fire support for company-sized operations. Instruction includes: FiST member responsibilities, FiST equipment, FiST procedures, CAS considerations, weapon effects, quick fire plans, planned fires, fire support planning, battlespace geometries, and an introduction to VBS3 scenario creation. The course also includes practical application in the form of an urban map battle drill, a non-live-fire field exercise in Miramar, and four VBS3 scenarios.

### Prerequisites.

1. Target Population. This course is designed for Marine personnel that currently serve in a company fire support team. Students attending this course should fill one of the following billets in a company FiST: Fire Support Team Leader, Fire Support Officer, FAC, JTAC, Joint Fires Observer, Artillery Forward Observer, 81mm Forward Observer, Radio Operator. This course is offered to officers in the ranks of 2ndLt through Capt and enlisted personnel in the ranks of PFC through SSgt.
2. Each iteration of the Company FiST course supports three, Fire Support Teams at full T/O. Minimum class size is two teams. Units unable to send three Fire Support Teams shall inform EWTGPAC personnel. The ideal class will have three teams from a single battalion. However classes with FiSTs from multiple units may still be conducted to meet the needs of the Marine Corps.

3. Students in attendance shall not be assigned duties or scheduled for medical/dental appointments during class time. Absences from any portion of any training day - not otherwise coordinated with instructor staff - will result in the student being academically dropped from training.

Special Equipment.

1. None

Special Notes.

1. Course is not funded.
2. Follow on coordination will be conducted via email at [EWTGPAC\\_Fires@us.navy.mil](mailto:EWTGPAC_Fires@us.navy.mil).

FAQs.

1. Class location. Personnel attending a resident course will report to Building 15, Classroom 4; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0800 on the first Monday of the class; recommend planning for 0730 arrival to accommodate bridge/gate traffic.
3. Uniform. Uniform of the day is Woodland MARPATs or service equivalent.
4. Gear. N/A.
5. Welcome Aboard email. Students receive reporting instructions 1 month to 2 weeks before class start date.
6. Orders. Course is not funded however, if reporting/detach orders are required we will facilitate that through the N1.

## Fire Support Coordination Course

CIN J-2E-4316      CID/CDP N30APJM/646C  
 Length 5 days/8 hours per day  
 Class Capacity Minimum 12 / Maximum 30

MASL Number P309518  
 Classification UNCLAS  
 MOS/NEC None

Quota Control. Seats offered to hosting command upon request to EWTGPAC at (619) 437-2184/3299. The appropriate requesting authority is the regiment (or equivalent).

Format. Mobile Training Team (MTT) using host command funds. Annual frequency for the course is six (6) Mobile Training Teams. Additionally, two resident courses are offered annually as part of the Naval Gunfire Liaison Officer Course.

Purpose. To provide U. S. Marine Corps, U. S. Navy, and International personnel with the skills needed to plan, coordinate and execute kinetic and non-kinetic effects as part of a Fire Support Coordination Center during amphibious operations or continuing operations ashore

Scope. The course encompasses the doctrine, tactics, techniques, and procedures for the planning, coordination, and execution of fire support for battalion-sized operations. Instruction includes an overview of surface and aviation

delivered fires, fire support planning, an overview of digital fire support systems, and techniques required for the coordinated employment of fire support assets. Practical exercises are provided to reinforce instruction, culminating in a final exercise simulating the execution of a battalion-level operation.

### Prerequisites.

1. Target Population: This course is designed for Marine, Navy and international personnel that currently serve or will serve as a Fire Support Coordinator or as part of the Fire Support Coordination Center. Students attending this course should fill one of the following billets: Fire Support Coordinator, Assistant Fire Support Coordinator, Fire Support Officer, Air Officer, Naval Gunfire Liaison Officer, Targeting Officer, and their respective chiefs. This course is offered to officers in the ranks of 1stLt through LtCol, warrant officers in the ranks of WO-CWO5, and staff non-commissioned officers in the ranks of SSgt through MSgt. Second Lieutenants and Sergeants will be considered on a case by case basis, based on the billet they currently hold or will hold.
2. Students are required to complete the following Marine Corps Distance Learning MOODLE courses located at: <https://elearning.marinenet.usmc.mil/moodle/course/view.php?id=4611>. Students will gain access to the Moodle page 15 business days prior to the course convening. Contact [EWTGPAC\\_fires@navy.mil](mailto:EWTGPAC_fires@navy.mil) with name and EDIPI to gain access if there are any delays or issues.
3. Students placed on the attendance roster for this course should not be assigned duties or scheduled for medical/dental appointments during class time. Uncoordinated absences from any portion of any training day will cause a student to be academically dropped.

Special Equipment.

1. Two classrooms (reserved by the host unit): one classroom with desks for all students, and one separate breakout room with one large table to facilitate two-person final exercise white cell.
2. Projector and Projection screen.
3. Dry Erase Board.

Special Notes.

1. Fire Support Coordinator Development course is the appropriate course to train Battalion FSCCs in the Active-Duty Fleet Marine Force. In FY24, EWTGPAC transitioned from Fire Support Coordination Course to Fire Support Coordinator Development Course. As of FY25, Fire Support Coordination Course will only be appropriate for the following units: Expeditionary Warfare School, students enrolled in Naval Gunfire Liaison Officer Course, and MARFORRES. All other students will attend Fire Support Coordinator Development Course.
2. For International Students, the FSCC course is also taught locally at EWTGPAC. Resident MASL is P129169.
3. For specific questions regarding this course, contact the Fire Support Branch at (619) 437-2184/3299 or at [EWTGPAC\\_Fires@us.navy.mil](mailto:EWTGPAC_Fires@us.navy.mil).

FAQs.

1. Class location. Personnel attending a resident course will report to Building 15, Classroom 2; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0800 on the first Monday of the class; recommend planning for 0730 arrival to accommodate bridge/gate traffic.
3. Uniform. Uniform of the day is Woodland MARPATs or service equivalent.
4. Gear. See Special Equipment (above).
5. Welcome Aboard email. Students receive reporting instructions 1 month to 2 weeks before class start date.
6. Orders. Course is not funded however, if reporting/detach orders are required we will facilitate that through the N1.

## Fire Support Coordinator Developer (FSCDC)

CIN J-2E-4316	CID/CDP TBD	MASL Number	P309518
Length 10 days/8 hours per day		Classification	<b>SECRET</b>
Class Capacity Minimum 10 / Maximum 20		MOS/NEC	None

**Quota Control.** MARFORPAC (G3) at (808) 477-8850/8787 (DSN 315-477-8850/8787). [SMB.MARFORPAC.Formal@usmc.mil](mailto:SMB.MARFORPAC.Formal@usmc.mil) via [MARFORPAC G3 Nomination](mailto:MARFORPAC G3 Nomination) by way of the student, service member's (S3) training section.

**Format.** In residence at EWTGPAC, NAB Coronado, students required to use parent command funds. Annual frequency for the course is six (6) resident courses.

**Purpose.** To provide U. S. Marine Corps, U. S. Navy, and International personnel with the skills needed to plan, coordinate and execute kinetic and non-kinetic effects as part of a Fire Support Coordination Center during amphibious operations or continuing operations ashore

**Scope.** The course encompasses the doctrine, tactics, techniques, and procedures for the planning, coordination, and execution of fire support for battalion-sized operations.

Instruction includes an overview of surface and aviation delivered fires, fire support planning, an overview of digital fire support systems, and techniques required for the coordinated employment of fire support assets. Practical exercises are provided to reinforce instruction, culminating in a final exercise simulating the execution of a battalion-level operation.

### Prerequisites.

1. Target Population: This course is designed for Marine, Navy and international personnel that currently serve or will serve as a Fire Support Coordinator. Students attending this course should fill one of the following billets: Fire Support Coordinator, Assistant Fire Support Coordinator, Fire Support Officer, Air Officer, Naval Gunfire Liaison Officer, Targeting Officer and their respective chiefs. This course is offered to officers in the ranks of 1stLt through LtCol, warrant officers in the ranks of WO-CWO5, and staff non-commissioned officers in the ranks of SSgt through MSgt. Second Lieutenants and Sergeants will be considered on a case-by-case basis, based on the billet they currently hold or will hold.
2. Students must complete the read-ahead hosted on MarineNet's Moodle website. EWTGPAC personnel will give access to the MarineNet course 15 business days prior to the report date. If you do not have access after that time, contact [EWTGPAC\\_Fires@us.navy.mil](mailto:EWTGPAC_Fires@us.navy.mil) with name and EDIPI to gain access.
3. Students placed on the attendance roster for this course should not be assigned duties or scheduled for medical/dental appointments during class time. Uncoordinated absences from any portion of any training day will cause a student to be academically dropped.

### Special Equipment.

1. Two classrooms (reserved at EWTGPAC): one classroom with desks for all students, and one

separate breakout room with one large table to facilitate two-person final exercise white cell.

2. Projector and Projection screen.
3. Dry Erase Board.

#### Special Notes.

1. Fire Support Coordinator Development course is the appropriate course to train Battalion FSCCs in the Active-Duty Fleet Marine Force. In FY24, EWTGPAC transitioned from Fire Support Coordination Course to Fire Support Coordinator Development Course. As of FY25, Fire Support Coordination Course will only be appropriate for the following units: Expeditionary Warfare School, students enrolled in Naval Gunfire Liaison Officer Course, and MARFORRES. All other students will attend Fire Support Coordinator Development Course.
2. For International Students, the FSCDC course is also taught locally at EWTGPAC. Residential MASL is P129169.
3. For specific questions regarding this course, contact the Fire Support Branch at (619) 437-2184/3299 or at [EWTGPAC\\_Fires@us.navy.mil](mailto:EWTGPAC_Fires@us.navy.mil).

#### FAQs.

1. Class location. Personnel attending a resident course will report to Building 15, Classroom 2; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0800 on the first Monday of the class; recommend planning for 0730 arrival to accommodate bridge/gate traffic.
3. Uniform. Uniform of the day is Woodland MARPATs or service equivalent.
4. Gear. See Special Equipment (above).
5. Welcome Aboard email. Students receive reporting instructions 1 month to 2 weeks before class start date.
6. Orders. Course is not funded however, if reporting/detach orders are required we will facilitate that through the N1.

## Littoral Targeting and Fires Primer

CIN TBD	CID/CDP TBD	MASL Number	N/A
Length 10 days/8 hours per day		Classification	<b>SECRET</b>
Class Capacity Minimum 12 / Maximum 30		MOS/NEC	None

**Quota Control.** Due to the emerging status of this course, quota control is managed via formal request (FoS) to EWTGPAC. Requesting units should be O6 command or higher. Requests should be submitted as early as possible, but no later than 90 days prior to start of training. Training date availability is limited, so contact N73 Fires Branch for available training date queries.

**Format.** This course is taught in residence at EWTGPAC on NAB Coronado however, MTTs will be entertained on a by FOS request basis. Includes one week of academics and developing one week of war gaming / practical application. As of publication of this course catalogue EWTGPAC is developing a standalone LVC war game however, the war gaming / practical application portion of this class may align with the Fleet Synthetic Training – Joint exercise hosted at EWTGPAC or elsewhere. Without the wargame/FST-J tie-in, the course will be conducted over one week with practical application conducted during the academics week.

**Purpose.** Individuals assigned to stand in force demonstrate the ability to plan, coordinate, direct, and synchronize employment of joint all-domain sensing, fires, and information capabilities from expeditionary advanced bases and naval surface fire support assets against maritime targets generating desired effects.

**Scope.** Littoral Targeting and Fires Course promotes USN-USMC integration by providing a learning experience that imparts foundational knowledge enabling learners to collectively plan, integrate, and produce multi-domain effects throughout the Maritime Component Commanders' (MCC) battlespace.

**Prerequisites.** Target population description: This course is designed for Marine and Navy personnel that serve within the FECC of MLR, MEU, or MRF, as well as personnel serving in the Fires Coordination cell of the MAOC. Learners attending this course should fill one of the following billets: Target Intelligence Officer, Technical Information Officer, Fires and Effects Coordinator, Assistant Fire and Effect Coordinator, Targeting Officer, Target Information Officer, Supporting Arms Coordinator, Space Officer, Cyber Officer, Air Officer, Assistant Air Officer, Naval Gunfire Liaison Officer, Air Support Coordinator, Air Support Element OIC, Interface Control Officer and their respective chiefs. This course is offered to naval officers in the ranks O2 - O5 (USMC: 1stLt - LtCol/USN: LTJG-CDR) and enlisted ranks of E6 - E9 (USMC: SSgt through MGySgt/ USN: PO1-CMC). E-5's will be considered on a case-by-case basis, based on billet requirements.

### Special Notes.

1. Ensure unit security manager submits a visit request for each student to EWTGPAC through DISS no later than one week prior to convening of the course.
2. EWTGPAC SMO Code is N630186.
3. Please also notate “Littoral Targeting and Fires” in the Visit Name block on the visit request.

4. For confirmation of visit request receipt or for security related questions please contact the EWTGPAC security manager at (619) 437-9676.
5. For specific questions regarding this course, contact the Fire Support Branch at (619) 437-2184/3299 or at [EWTGPAC\\_Fires@us.navy.mil](mailto:EWTGPAC_Fires@us.navy.mil).

FAQs.

1. Class location. Personnel attending a resident course will report to Building 401 MAGTF Fires Classroom; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0800 on the first Monday of the class; recommend planning for 0730 arrival to accommodate bridge/gate traffic.
3. Uniform. Uniform of the day is Woodland MARPATs or service equivalent.
4. Gear. See Special Equipment (above).
5. Welcome Aboard email. Students receive reporting instructions 1 month to 2 weeks before class start date.
6. Orders. Course is not funded however, if reporting/detach orders are required we will facilitate that through the N1.

## Marine Air Ground Task Force (MAGTF) Fires

CIN K-2G-9054	CID/CDP N30F2D1/00D7	MASL Number	None
Length 10 days/8 hours per day		Classification	<b>SECRET</b>
Class Capacity Minimum 10 Maximum 25		MOS/NEC	None

Quota Control. This course – inactive since 2015 - is currently being brought in line with current operational requirements and will be available in October of 2026. EWTGPAC will teach two iterations each FY following the Oct 2026 course convening.

Format. This course is taught in residence.

Purpose. Individuals are prepared to operate in a MEF/MEB Staff and equipped to plan, execute, and integrate MAGTF level fires and effects while operating in a Joint or Combined environment. Individuals will have demonstrated proficiency of joint organizations, fire support plans and orders, integration of information capabilities, intelligence support to MAGTF fires, targeting processes, command and control, and the specific operational techniques and authorities required to plan, integrate, and coordinate lethal and non-lethal effects, kinetic and non-kinetic fire support assets.

Scope. The course encompasses the concepts, doctrine, principles and techniques for the planning, coordination, integration, and execution of MAGTF fire support in a Joint and Combined environment. Instruction includes joint organizations, fire support plans and orders, integration of information capabilities, intelligence support to MAGTF fires, targeting processes, command and control, and the specific operational techniques and authorities required for the coordination of lethal and non-lethal effects, kinetic and non-kinetic fire support assets. Practical exercises are provided to reinforce instruction by utilizing electronics systems normally found at a MEF/MEB Fires and Effects Coordination Center (FECC).

Prerequisites. This course is intended for E6-E9, WO-CWO5 and O3-O6 and applicable FVEY partners and allies who will fill billets within the MEF/MEB Fires Effects Coordination Center or who may serve as liaisons/augments to fires organizations within a joint environment. Personnel not meeting this requirement will be admitted on a case-by-case basis. Course will be conducted in a Secret Rel to FVEY.

### Notes.

1. Ensure unit security manager submits a visit request for each student to EWTGPAC through DISS no later than one week prior to convening of the course.
2. EWTGPAC SMO Code is N630186.
3. Please also note "MAGTF Fires" in the Visit Name block on the visit request.
4. For confirmation of visit request receipt or for security related questions please contact the EWTGPAC security manager at (619) 437-9676.
5. For specific questions regarding this course, contact the Fire Support Branch at (619) 437-2184 or

[EWTGPAC\\_Fires@us.navy.mil](mailto:EWTGPAC_Fires@us.navy.mil).

FAQs.

1. Class location. Personnel attending a resident course will report to Building 401 MAGTF Fires Classroom; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0800 on the first Monday of the class; recommend planning for 0730 arrival to accommodate bridge/gate traffic.
3. Uniform. Uniform of the day is Woodland MARPATs or service equivalent.

6. Orders. Course is not funded however, if reporting/detach orders are required we will facilitate that through the N1.

## Naval Fires Control System (NFCS) MOD 1 Naval Surface Fire Support (NSFS) Team Training

CIN S-150-0033	CID/CDP	None/03JB	MASL Number	None
Length	3 days/8 hours per day		Classification	UNCLAS
Class Capacity	Required 9		NEC	None

Quota Control. EWTGPAC San Diego - (619) 437-3741 or DSN 577-3741.

Format. This course is only taught by Mobile Training Team at the requesting unit. Annual frequency and scheduling of the course is dependent on ship availability.

Purpose. To provide a ship's Naval Gunfire Support Team with training in proper execution of Naval Gunfire Support (NGFS) utilizing the AN/SYQ-27 Naval Fires Control System in order to conduct safe and effective firing. This includes procedures outlined in CNSPLINST 3502.7(series), FXP-5(series), NTTP 3-02.2, and ATP-4 (series).

Scope. Course provides classroom/lab instruction in the operational procedures used in Naval Gunfire Support, followed by instructor supervised laboratory training in the requesting unit's Combat Information Center. The course emphasizes development of team proficiency through simulated naval gunfire missions. The fall of shot is evaluated by use of the NSFS Embedded Trainer.

### Prerequisites.

1. Team members must successfully complete the 5-day Naval Surface Fire Support Team Training (MK34 MOD1/2/3/Gun Weapon System) J-113-0163.
2. The Land Attack Warfare Officer (LAWO) must have completed Land Attack Warfare Officer Course (A-2G-0068).
3. The NFCS Operator must have completed Naval Fires Control System (NFCS) Operation and Maintenance (O&M) Course (A-150- 0052).
4. Team members will acquaint themselves with gunnery procedures CNSFINST 3502.1(series), FXP-5(series), NTTP 3-02.2, and ATP-4(series).
5. LAWO will be familiar with capabilities and limitations of ship's Gunfire Control System.

### Special Notes.

1. Schedule course through EWTGPAC San Diego - (619) 437-3741 or DSN 577-3741. See CNSFINST 3502.7 (series) for detailed information on team composition requirements and other administrative details. MTTs will not be scheduled with conflicting Combat Information Center exercises or training to include but not limited to ATG Basic Phase Training, and Cruise Missile Tactical Qualification. This is an in-port trainer and will not be scheduled during an underway period.
2. WESTPAC: Schedule course through SCSTC Yokosuka.

## Naval Gunfire Liaison Officer Course

CIN K-2G-0040

Class Capacity Minimum 5 Maximum 20

MOS/NOBC

0840/9272

**Quota Control.** EWTGPAC Quota Management Office. Students who are en-route on PCS orders should have this listed as an intermediate stop; all others contact EWTGPAC Quota Management Office. Annual frequency for the course is (two) 2 resident classes. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

**USMC Quota Control.** MARFORPAC (G3) at (808) 477-8850/8787 (DSN 315-477-8850/8787). [SMB.MARFORPAC.Formal@usmc.mil](mailto:SMB.MARFORPAC.Formal@usmc.mil) via [MARFORPAC G3 Nomination](#) by way of the student, service member's (S3) training section.

**Format.** Taught in residence at EWTGPAC.

**Purpose.** To train U.S. and Allied officers and staff noncommissioned officers for duty as Naval Gunfire Liaison Personnel within the Marine Corps and other designated units

**Scope.** This course consists of lectures, demonstrations, practical applications, and field exercises. Students will learn naval gunfire planning for a landing force in an amphibious operation, fire support planning and coordination in support of Marine Corps maneuver units. Instructional methodology is based on individual training concepts. All trainees must demonstrate proficiency in naval gunfire planning, naval gunfire spotting, fire support planning, fire support coordination measures, land navigation, communication techniques and procedures, both in written and practical application. Completion of this course indicates that the trainee has met the minimum qualifications to perform as a Naval Gunfire Liaison Officer or Naval Gunfire Planner.

**Prerequisites.** Trainees must:

1. Be U.S. regular or reserve officers, U.S. Staff Noncommissioned Officers (E6 and above) or officers of allied services who require training in the employment of naval gunfire. USMC Staff Noncommissioned Officers must hold MOS 0861 or be in an OJT status for that MOS.
2. Be medically qualified for field training.

**Special Notes.**

1. Reporting/Check In. Upon Receipt of orders to NGLO training, contact EWTGPAC NGLO instructor staff at (619) 437-2184 or email [EWTGPAC\\_NGLO@navy.mil](mailto:EWTGPAC_NGLO@navy.mil) to facilitate coordination of check in.

- a. Students arriving on the evening prior to Training Day One should report to the EWTGPAC Command Duty Officer, located in Building 15 or by phone at (619) 805-0460 for orders endorsement.

2. It is recommended that students stay in the NAB Coronado Navy Gateway Inn due to proximity to training facilities and early training start times. Students requiring lodging at this facility should contact the front desk at (619) 437-3860 or DSN 577-3860 and request a room. Rooms are equipped with a microwave and refrigerator only. If a student does not require lodging, please contact EWTGPAC NGLO staff as soon as possible to facilitate coordination. Due to training schedule, students on Permanent change of station (PCS) orders should request the proportional meal rate be reflected on their orders to ensure adequate compensation for messing expenditures.
3. American Council on Education college credit recommendation: 3 semester hours in Tactical Mission Planning (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
4. \*Approximately three hours of training on Tomahawk Land Attack Cruise Missiles (TLAM) will be classified SECRET/REL: UK. All DOD and any MOD students will need to have their Security Office send DISS visit requests to verify clearances with the EWTGPAC Security Manager. All classified material is non-testable and provided for lesson/purpose only. Non-MOD international students will be given extra time for independent study during this period.

#### FAQs.

1. Class location. Personnel attending a resident course will report to Building 15, Classroom 2; Around Week 2, class will move into Building 401 in the ISMT; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0800 on the first day of the class; recommend planning for 0730 arrival to accommodate bridge/gate traffic.
3. Uniform. A) If current or gaining command requires Woodland MARPAT camouflage utility uniforms, it is highly recommended that Woodlands be used for the course. Otherwise, NWU type-three uniforms are authorized. Woodlands include a pair of USMC authorized boots, a utility cap, green undershirts, boot bands and a darkened naval officer crest on the camouflage cover (for Navy officers). Rank and warfare pins will be worn in accordance with Marine Corps standards. Students are required to own one (1) set of subdued rank insignia. The standard USN khaki web belt will be worn while in MARPAT uniform. Riggers belts are only authorized in USMC utility uniforms after completion of the MCMAPI tan belt test. International students should bring two (2) sets of their respective camouflage utilities. B) International students are not required to wear service dress uniforms at any time during the course.
4. Gear. Map pens and compass if students want to bring their own. All required field gear will be issued for the course. If a student has received their Individual Issue Facility (IIF) gear set from their parent USMC command, it is recommended that they contact EWTGPAC NGLO course staff to discuss an adapted gear list.
5. Welcome Aboard email. Students receive reporting instructions NLT 1 week before class start date.
6. Orders. Instructors take orders to N1 to stamp on Day 1.

## Naval Gunfire Liaison Officer Seminar

CIN N/A	CID/CDP N/A	MASL Number	N/A
Length 2-5 days/8 hours per day		Classification	UNCLAS
Class Capacity Minimum 5 Maximum 20		MOS/NOBC	N/A

Quota Control. This seminar will only be provided upon request. Submit requests via Feasibility of Support (FoS) requests, see Enclosure (1).

Format. Taught in residence at EWTGPAC. Availability is limited due to EWTGPAC N73 scheduling. Contact Fire Support or Naval Surface Fire Support Branch for availability queries.

Purpose. The NGLO Seminar is an intensive course designed to provide a focused exploration of naval gunfire spotting techniques, procedures, and applications to personnel with prior fire support experience. It enhances the ability of these personnel to support their units and command by refining their knowledge and application of naval gunfire support.

Scope. This seminar includes lectures, demonstrations, practical applications, and simulator time. Attendees will deepen their understanding of naval gunfire planning, fire support planning, and coordination within a condensed time frame. Proficiency in advanced naval gunfire planning, naval gunfire spotting, fire support planning, and fire support coordination measures will be demonstrated by each participant.

Prerequisites. Trainees must be part of units with dedicated fire support billets or have a specific necessity for advanced naval gunfire support training.

### Special Notes.

1. Reporting/Check In. Contact EWTGPAC NGLO instructor staff at (619) 437-2184 or email [EWTGPAC\\_NGLO@navy.mil](mailto:EWTGPAC_NGLO@navy.mil) to facilitate scheduling/coordination of seminar convening.
2. Uniforms. The required uniform for the seminar is the respective service's camouflage uniform (e.g., NWU Type III for Navy, MARPATs for Marine Corps, etc.). Please ensure to adhere to your service's standards and guidelines for uniform wear during the seminar.
3. It is recommended that students stay in the NAB Coronado Navy Gateway Inn due to proximity to training facilities. Students requiring lodging at this facility should contact the front desk at (619) 433-860 or DSN 577-3860 and request a room.

## Naval Surface Fire Support (NSFS) Focused Team Training

CIN J-113-0050	CID/CDP None/18AG	MASL Number	None
Length 4 days/8 hours per day		Classification	UNCLAS
Class Size 14		NEC	None

Quota Control. EWTGPAC San Diego - (619) 437-3741 or DSN 577-3741.

Format. This course is only taught by Mobile Training Team at the requesting unit. Annual frequency and scheduling of the course is dependent on ship availability.

Purpose. To provide a ship's Naval Surface Fire Support Team with Initial training in proper execution of Naval Surface Fire Support (NSFS) to conduct safe and effective firing. This includes procedures outlined in CNSPL 3502.7(series), NTTP 3-02.1 and ATP-4(series).

Scope. Naval Surface Fire Support (NSFS) Team Initial Team Training (ITT) is to prepare a ship's NSFS Team in the execution of Naval Surface Fire Support (NSFS) while emphasizing proper execution of procedures to conduct safe and effective firing in support of ground forces and other missions during amphibious operations.

Prerequisites. None.

Special Notes. Schedule course through EWTGPAC San Diego - (619) 437-3741 or DSN 577-3741. Detailed information on team composition requirements is contained in the current STW-NSFS ASA Check-sheet that is hosted on the ATG toolbox. Administrative and certification requirements are listed in the CNSPLINST 3502.7 (series) within Appendix A. MTTs will not be scheduled with conflicting Combat Information Center exercises or training to include but not limited to Ballistic Missile Defense, Air/Surface Warfare, Anti-Submarine Warfare, or Cruise Missile Tactical Qualification. This is an in-port trainer and will not be scheduled during an underway period.

MTTs will not be scheduled with conflicting Combat Information Center exercises or training to include but not limited to Ballistic Missile Defense, Air/Surface Warfare, Anti-Submarine Warfare, or Cruise Missile Tactical Qualification. This is an in-port trainer and will not be scheduled during an underway period.

## Naval Surface Fire Support (NSFS) Team Training MK34 MOD 4 Gun Weapon System

CIN J-113-0045	CID/CDP	None/08MN	MASL Number	None
Length 5 days/8 hours per day			Classification	UNCLAS
Class Size 14			NEC	None

Quota Control. EWTGPAC San Diego - (619) 437-3741 or DSN 577-3741.

Format. This course is only taught by Mobile Training Team at the requesting unit. Annual frequency and scheduling of the course is dependent on ship availability.

Purpose. To provide a ship's Naval Gunfire Support Team with training in proper execution of Naval Gunfire Support (NGFS) in order to conduct safe and effective firing. This includes procedures outlined in CNSFINST 3502.1(series), FXP-5(series), NTTP 3-02.2, and ATP-4(series).

Scope. This is an advanced trainer/certification course that provides classroom instruction in the operational procedures used in Naval Gunfire Support, followed by instructor supervised laboratory training/certification in the requesting unit's Combat Information Center. The course emphasizes development of team proficiency through simulated naval gunfire missions.

### Prerequisites.

1. All team members must be fully PQS qualified and possess fundamental knowledge of their watch station prior to attending the course.
2. Team members will acquaint themselves with gunnery procedures, FXP-5(series), NTTP 3-02.2, and ATP-4(Series).
3. Gunnery Liaison Officer (GLO) will be familiar with capabilities and limitations of ship's Gunfire Control System.
4. If ship is equipped with the Naval Fires Control System (NFCS) GLO will be a graduate of the Land Attack Warfare Officer Course (A-2G-0068).

Special Notes. Schedule course through EWTGPAC San Diego - (619) 437-3741 or DSN 577-3741.

Detailed information on team composition requirements is contained in the current STW-NSFS ASA Check-sheet that is hosted on the ATG toolbox. Administrative and certification requirements are listed in the CNSPLINST 3502.7 (series) within Appendix A. MTTs will not be scheduled with conflicting Combat Information Center exercises or training to include but not limited to Ballistic Missile Defense, Air/Surface Warfare, Anti-Submarine Warfare, or Cruise Missile Tactical Qualification. This is an in-port trainer and will not be scheduled during an underway period.

## Naval Surface Fire Support (NSFS) Team Training MK34 MOD 6 Gun Weapon System

CIN S-113-0612	CID/CDP	None/11H4	MASL Number	None
Length	5 days/8 hours per day		Classification	UNCLAS

**Quota Control.** To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) EWTGPacRegistrar.fct@navy.mil, or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required. Annual frequency for the course is one (1) or two (2) resident classes, dependent on ARG/MEU deployment schedule.

**USMC Quota Control.** MARFORPAC (G3) at (808) 477-8850/8787 or DSN 477-8850/8787.

[SMB.MARFORPAC.Formal@usmc.mil](mailto:SMB.MARFORPAC.Formal@usmc.mil) via [MARFORPAC G3 Nomination](#) by way of the student, service member's (S3) training section.

**Format.** Taught in residence at EWTGPAC.

**Purpose.** To review the principles and techniques utilized in the coordination of Supporting Arms. This course will bring together Navy/Marine members in order to train them as a SACC team in the duties, responsibilities, and functioning of a SACC during an amphibious operation. This course is designed to train the SACC Team prior to conducting SACC exercises and deployment.

**Scope.** The SACC course consists of lectures and practical work designed as a review of weapons and weapons systems, explains the principles of fire support planning and the role of intelligence in fire support planning and execution, and culminates in an integrated team trainer scenario. It also covers the principles and techniques involved in fire support coordination during both the planning and execution phases of an operation, defines the roles and responsibilities of SACC personnel, and details the C2 systems and personnel functioning in a SACC. The C2 course of instruction teaches automated processing of fire support coordination on systems that include: Advanced Field Artillery Tactical Data Systems (AFATDS), Effects Management Tool (EMT), Command and Control Personal Computer (C2PC), Theater Battle Management Core System (TBMCS), Navy Fire Control System (NFCS), and Joint Automated Deep Operations Coordination System (JADOCS). The SACC course includes a final written test and practical exercise to determine successful completion of all course requirements in accordance with the Fleet Readiness Training Plan (FRTP).

THIS IS A TEAM TRAINER CONCEPT CONSISTING OF NAVY AND MARINE PERSONNEL WHO WILL PERFORM SACC DUTIES ON DEPLOYMENT TO INCLUDE TRAINING ON THE ASSIGNED FLAGSHIP.

### Prerequisites.

1. Individual must be a member of (or detailed to be assigned as a member of):
  - a. MEB/ESG/MEU/PHIBRON
  - b. TACRON Staff
  - c. MAGTF/GCE/ACE Staff
2. The majority of the population must be members of an actual ARG/MEU SACC. Priority for quota

assignment is given to those students who are currently assigned to or pending assignment to, a billet directly relating to fire support coordination.

Special Notes.

1. All personnel attending should report to EWTGPAC, Building 401, Room 147 (MAGTF FIRES) NLT 0730 on the class convening day.
2. To ensure seats are available in the course contact the Learning Standards Office at (619) 437-2844/5679/5872, or DSN 577-2844/5679/5872 NLT thirty days prior to the course convening date.
3. Please ensure that your unit security manager submits a visit request to EWTGPAC through DISS. SMO Code: N630186. Indicate the course name in the POC block of the DISS request form. For further security clearance submission questions, contact EWTGPAC security manager at (619) 437-9676.
4. Course will provide Fire Support briefs, C41 Systems indoctrination, and an interactive Team Trainer. Below is a list of recommended courses for specific billets within the SACC. Depending on the billet of the individual planning to attend the Primer, many of the courses will not apply.
  - a. MDS Staff Employment (J-2F-2100) TTGP/L 12 Days
  - b. Land Attack Warfare Officer (LAWO) (A-2G-0068) FASWTRACEN PL 5 Days
  - c. Naval Gunfire Liaison Officer Course (K-2G-0040) EWTGPAC 5 Weeks
  - d. Fire Support Coordinator Development Course (J-2E-4316) EWTGPAC 10 Days
  - e. TBMCS Operator (CID M10KBZT) MAGTF Integrated Systems Training Center 3 Days
  - f. AFATDS Operator (CID M10KDJT) Camp Pendleton, CA 5 Days
  - g. ISRT Architecture Management Course (J-150-2957) IWTC 5 Days
  - h. Maritime Fires Course (J-2-0655) TTGP 5 Days
5. Uniform. Utilities or service equivalent.
6. American Council on Education college credit recommendation: 3 semester hours in Critical Thinking and Decision Making (lower-division, Baccalaureate/Associate).

## N75 Tactical Air Division

Organization. The Tactical Air (TACAIR) Division consists of an inter-service team of uniformed and civilian instructors possessing both USMC and joint qualifications in a broad base of expertise relative to the doctrine, tactics, techniques, and procedures of fire support.

General Information. The TACAIR Division provides training in the integration of air and surface fires, close air support, fire support coordination, and aviation staff planning. Using classroom instruction, planning exercises, practical application, and evaluation students are taught the doctrine and tactics, techniques, and procedures of controlling, de-conflicting and integrating air and surface joint fires. Practical application and evaluation in the simulated environment utilizes the Deployable Virtual Training Environment (DVTE) and Combined Arms Virtual Environment (CAVE). Practical application and evaluation in the live-fire environment occurs at off-site military ranges. The TACAIR Division is composed of USMC, USN, and USAF officers and enlisted with backgrounds in both ground and aviation. The division is responsible for conducting the Tactical Air Control Party (TACP) and Joint Fires Observer (JFO) courses as well as support instruction to other courses.

Course Coordination. Course Directors can be contacted for detailed information concerning course content or matters requiring subject area expertise.

(619) 437-2641

## Joint Fires Observer (JFO)

CIN J-2G-2111      CID/CDP N30KLB1/06N0  
 Length 10 days/8 hours per day  
 Class Capacity Minimum 12 Maximum 20

MASL Number P179081  
 Classification **SECRET**  
 MOS/NEC None

**Quota Control.** All Marine Corps combat arms personnel who want to attend the JFO course should contact POG-22 at (703) 614-1257 or DSN 224-1257. Contact EWTGPAC for how to request mobile training team instruction for this course.

**Admin.** Government quarters are available on NAB Coronado, but free government quarters are not. Reservations can be made at the Gateway Inn on NAB Coronado or NAS North Island. Government messing is available on NAB Coronado as well as commercial dining facilities. Orders will be collected and endorsed. Ensure orders are written in order to account for both billing and messing.

**Format.** Taught in residence at EWTGPAC. MTT will be conducted on an as-needed basis with limited scheduling availability. Call the TACAIR office for additional MTT details. Annual frequency for the course is seven (7) resident and two on-demand Mobile Training Team at the requesting units location.

**Purpose.** The JFO course provides select, joint personnel with standardized and joint certified training to engage targets with joint fires, through the detailed integration with terminal attack controllers (TACs) and Fire Support Teams (FSTs). Students who graduate this course will be able to request, control, and adjust joint mortar, field artillery (FA), and naval surface fire support (NSFS); provide targeting information for close air support (CAS), Terminal Guidance Operations (TGO), Initial Terminal Guidance (ITG) operations, SOF Gunship Call for Fire, Army Attack Aviation Call for Fire, and joint fire support planning at the company level.

**Scope.** Synchronized joint fire support requires the coordinated interaction of all of the elements of the fire support system, thorough continuous planning, aggressive coordination, and vigorous execution. JFOs provide the capability to exploit opportunities where trained observers can facilitate timely and accurate targeting information for joint fires. The JFO adds war fighting capability but does not circumvent or nullify the need for a qualified joint terminal attack controller (JTAC)/forward air controller (airborne) [FAC(A)] during Close Air Support (CAS) operations. In conjunction with JTACs, JFOs assist ground commanders with the timely synchronization and responsive execution of all joint fires and effects at the tactical level.

### Prerequisites.

1. Minimum GT score of 100.
2. Normal color vision, correctable to 20/20.
3. Visit request sent by unit security manager via DISS. Visit Name must match Course Name.
4. Six months of relevant fire support related experience in an operational unit. This includes, but is not limited to: participation in live or simulated fires training events where the prospective trainee conducted mortar, artillery, NSFS or CAS missions, combined arms training where prospective trainee assisted in the coordination and approval of joint fires missions, attendance of fires related non-MOS producing schools (FSCC, SACC, or Mortar Unit Leader Course), ANGLICO Basic Course or unit held primer TACP training.

5. 0621 shall be serving in a FCT, FST or TACP / FSAC billet.

6. Completion of the following:

a. One week of Primer training is required per NAVMC 3500.42C, TACP T&R. The syllabus should be developed through the unit TACP program manager or delegated JFO-E or equivalent. At a minimum, students must be able to:

- (1) Read a map, navigate on foot using a map (Non GPS aided)
- (2) Locate a target with map and compass
- (3) Use the current Common Laser Range Finder (CLRF)
- (4) Understand ops terms and graphics related to fires
- (5) Conduct artillery and naval call-for-fire in accordance with MCRP 3-10F.2/ATP 3-09,30 and ATP 04F version 2 to the standards listed in NAVMC 3500.7 Artillery T&R
- (6) Understand CAS capabilities for U.S. Marine Corps aircraft and receive several demonstrations on CAS procedures.

Primers are also conducted at the Marine artillery regiments and ANGLICOs if units cannot support this requirement.

b. The JFO-SSUP-2001 Conduct an Adjust Fire (AF) mission and JFO-SSUP-2002 Conduct a Naval Surface Fire Support (NSFS) Spotter Adjust mission. Prospective trainees shall complete five Adjust Fire missions and one NSFS Adjust Fire mission in a Cat I or equivalent simulator (e.g. SAVT, CAVE, etc.), Cat II or equivalent simulator (e.g. DVTE or VBS3), or live fire. These events shall be supervised by a JFO-Evaluator (JFO-E) designated by the trainee's command.

c. JFO-SOAS-2008 Provide targeting information to a Terminal Attack Controller (TAC) for a rotary wing (RW) CAS mission and JFO-SOAS-2013 Provide targeting information to a Terminal Attack Controller for a fixed wing (FW) CAS mission. Prospective trainees shall complete each event a minimum of one time in a Cat I or equivalent simulator, Cat II or equivalent simulator or live fire. These events shall be supervised by a JFO-E who is TAC qualified. The TAC may reference / log controls TAC-SINT-2107 during this requirement.

d. The above requirements will be documented on enclosure (3) - pages 147 to 149 in this catalog, the [EWTGPAC JFO Command Screening Checklist](#) – signed by both the Operations Officer, and the Unit Air Officer, and it is to be brought by prospective students on training day 1.

#### Additional Notes.

1. American Council on Education college credit recommendation: 3 semester hours in Orienteering (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).

## Tactical Air Control Party (TACP)

CIN K-2G-3615	CID/CDP N306741/481Z	MASL Number	P124520
Length 25 days/8 hours per day		Classification	<b>SECRET</b>
Class Capacity Minimum 10 Maximum 24		AQD/NEC	JC1/822A
		MOS	7502 or 8002

**Quota Control.** Marine aviation personnel attending TACP course should expect orders coordinated through respective monitors, MMOA-2. Non-aviation personnel should expect orders coordinated through HQMC, PP&O (POG-70). Annual frequency is six (6) resident courses. International military student seats are to be requested from the Marine Corps Security Cooperation Group (MCSG).

**Admin.** Government quarters are available on NAB Coronado. Free government quarters are unavailable. Reservations can be made at the Gateway Inn on NAB Coronado or NAS North Island. Government messing is available on NAB Coronado as well as commercial dining facilities. Orders will be collected and endorsed. Ensure orders are written in order to account for both billing and messing. Contact Course manager for admin details related to off-site live-fire training.

**Format.** Taught in residence at EWTGPAC. Includes four day live-fire exercise (FIREX) at Marine Corps Air-Ground Combat Center, Twenty-nine Palms, CA.

**Purpose.** The mission of the EWTGPAC TACP Course is to train Joint / Coalition officer and enlisted personnel to conduct terminal attack control of close air support (CAS). This course offers initial and refresher training in the joint tactics, techniques and procedures used for controlling and integrating the broad spectrum of fire support and air power available to the Marine Air-Ground Task Force (MAGTF)/Joint Task Force (JTF) Commander.

**Scope.** The course encompasses the concepts, doctrine, and principles used in the employment of air power in support of MAGTF or JTF operations. The curriculum prepares students to accomplish three broadly based mission-essential duties and includes instruction in both planning and employing air power as an integrated fire support asset or force multiplier in support of the Ground Combat Element scheme of maneuver. The course meets the requirement of the Joint Memorandum of Agreement for qualifying service members as Joint Terminal Attack Controller (JTAC). Additionally, the 2000-level Marine Corps TACP Training and Readiness (T&R) syllabus requirements are accomplished through simulation and live-fire events. Marine aviation officers (Naval Aviators or Naval Flight Officers) assigned to a Tactical Air Control Party (TACP) will receive an additional MOS, 7502, and be prepared to accomplish their mission as a Forward Air Controller (FAC) or Air Officer (AO). Marine ground combat arms officers, staff NCOs and NCOs assigned to a TACP will receive an additional MOS, 8002, and be prepared to accomplish their mission as a JTAC. Prospective Joint or International students should contact their respective personnel administration agencies to determine JTAC designation eligibility.

### Prerequisites.

1. Ground Combat Arms Marines are required to be a certified JFO or complete the JFO standardization check event found in the Marine Corps TACP T&R Manual.

2. Have at least 24 months of obligated service upon the completion of the MOS producing school. Selected Marine Corps Reservists are required to gain 24 months of obligated service as well.
3. Personnel meeting above prerequisites are still highly encouraged to attend a unit-run primer event, especially in the case of those who narrowly meet the above minimum. Primers (such as those run by associated artillery regiments and ANGLICOs) provide instructors a meaningful opportunity to prepare students for the rigorous course load students will face and will help students identify potential areas for improvement well in advance of the actual course. If desired, TACP Course Manager can provide POCs to prospective students.
4. Enclosure (6) in this catalog: [EWTGPAC TACP prerequisites checklist](#).

Additional Notes.

1. Students attending the course are identified by HQMC through the Marine Corps TECOM Integrated Management System (MCTIMS).
2. Ensure that your unit's Security Manager submits a visit request including all attending personnel from your unit to EWTGPAC through Defense Information System for Security (DISS)
3. The SMO Codes are N630186 and 010793. Also, you must indicate the course name (Tactical Air Control Party) in the Visit Name block of the visit request form. Once the request has been submitted, call (619) 437-9676 with any questions you may have regarding your security clearance submission.
4. Students require a SECRET clearance in order to complete the Digital Call for Fire Practical Application conducted in conjunction with this course.
5. Uniform of the day during the course is woodland utilities for all students; flight suits are authorized for wear on Fridays for aviators. Desert utilities should be worn to the maximum extent at the FIREX.
6. Minimum required personal protective equipment (PPE) for the live fire event (FIREX) includes a flak vest and Kevlar helmet. In the event students are not local or do not have individual issue items, temporary issue equipment is available from EWTGPAC.
7. American Council on Education college credit recommendation: 3 semester hours in Critical Thinking and Decision Making (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
8. AQD/MOS/NEC awards to TACP graduates.
  - a. Additional Qualification Designation JC1 for US Navy aviators.
  - b. 7502 Forward Air Controller/Air Officer MOS for Marine Aviators and Unmanned Aircraft Systems Officers.
    - c. 8002 Joint Terminal Attack Controller (JTAC) MOS for Marine graduates holding a pre-requisite MOS of 0302, 0321, 0802, 0861, 0871, 1802, or 1803.
    - d. 822A Joint Terminal Attack Controller (JTAC) NEC for Navy enlisted graduates.
9. For further information, contact the TACP Course Manager at (619) 437-2641 or DSN 577-2641.

## N77 U.S. Navy Training Division

### N771 LCAC Branch

Organization. Navy Training Division is staffed by officer, enlisted and contract personnel with extensive experience in operating and maintaining the Landing Craft, Air Cushion and ship-to-shore movement of troops, equipment and combat cargo.

LCAC Branch is responsible for teaching three operator courses (Craftmaster, Engineer/Assistant Craftmaster, and Navigator) and two maintenance courses (Craft Control Systems and Mechanical Maintenance) for personnel assigned to Assault Craft Units Four or Five and Naval Beach Unit Seven. The Operator courses teach Crew Resource Management in operating the LCAC in normal, emergency, and casualty modes in all conditions including ship's well-deck entry and exit. The operator courses utilize the LCAC Full Motion Trainer (FMT) - a state of the art, virtual reality full-motion simulator. Live missions are also conducted aboard actual LCACs. The LCAC maintainer courses provide basic training for maintenance personnel on the electronic, analog, and mechanical systems that propel, lift and control the motion of the LCAC. Both maintenance courses utilize a decommissioned LCAC or specially designed laboratories and mock-ups for a hands-on training experience. All courses include training aboard live craft at ACU-5, Camp Pendleton, CA.

Course Coordination. Course Managers may be contacted for specific course content or information requiring subject area expertise.

<u>AREA</u>	<u>DSN</u>	<u>COMMERCIAL</u>

## LCAC Craft Control Systems Maintenance Course

CIN K-652-0315	CID/CDP None/0610	MASL Number	P145556
Length 25 days/8 hours per day		Classification	UNCLAS
Class Capacity Minimum 4 Maximum 12		NEC	731B

Quota Control. 1-866-827-5672, Extension 3. Ask for the GSE/GSM Detailer.

Format. Taught in residence at EWTGPAC aboard Marine Corps Base Camp Pendleton, bldg. 31910. Annual frequency for the course is four (4) resident classes.

Purpose. The Craft Control Systems Maintenance course provides LCAC maintenance personnel with the necessary information and skills to maintain LCAC command, control, communication, navigation, electrical, and auxiliary systems at the apprentice level.

Scope. Students will be provided with technical data required to set-up, check out, inspect, disassemble, assemble, troubleshoot and repair Craft Control systems and provided with practical applications to reinforce the knowledge. Basic electronics maintenance skills to include soldering, basic troubleshooting techniques, multi meter, operation, installation and weather proofing of cables and connectors will be reinforced.

### Prerequisites.

1. Prospective students must be a graduate of either AE, AT, AWV, EM, ET, GS, GSE, or IC "A" school.
2. Must be serving in pay grade E3 – E8 and have completed the Rate Training Manual for either Gas Turbine Systems Technician (Electrical) Third Class or Electronics Technician Third Class and also have completed US Navy Electricity and Electronics (NEETS) modules 1-5 and 16.

### Special Notes.

1. Personnel are to make prior reservations via SATO or another source for a minimum of 33 days for ACU5 BEQ (DSN 577-3494/3495) upon receipt of orders. There is limited availability so early reservations are encouraged.
2. Personnel report to ACU 5 on Camp Pendleton, CA, Building 31910 Room 209 NLT 0800 on the Class Convening (CLCVN) date. The course will take place at ACU 5 for the duration of the class with the exception of graduation day which will be held at NAB Coronado, CA - building 207 Quarterdeck.
3. Report in Navy Service Uniform as per Navy regulation during check-in process and first day of class. Uniform of the day will be the Navy Working Uniform - a sufficient number of which will be required for laboratory instruction. Safety shoes are also required.
4. No leave will be authorized during or between training phases.

5. American Council on Education college credit recommendation: 3 semester hours in Electromechanical Systems Troubleshooting and Maintenance (lower-division, Baccalaureate / Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
6. NEC 731B will be awarded to graduates.

## LCAC Craftmaster Crew Training Course

CIN K-062-0100  
Length 126 days/8-12 hours per day  
Class Capacity Minimum 1 Maximum 4

CID/CDP None/0621

MASL Number P124322  
Classification UNCLAS  
NEC

800A

Quota Control. ACDU USN: BUPERS 402D3 - (901) 874-3845 or DSN 882-3845. Annual frequency for the course is three (3) resident classes.

Format. Taught in residence at EWTGPAC aboard both Naval Amphibious Base, Coronado and Marine Corps Base, Camp Pendleton.

Purpose. This course is designed to provide LCAC Craftmasters with the knowledge and skills required to operate the LCAC in accordance with the LCAC Safe Engineering and Operations (SEAOPS) manuals. Operations will be practiced in normal, emergency, and casualty modes of operation; hull-borne, over water and over land. The training will include ship Well-Deck entry and exit. It prepares the student to attend LCAC Craftmaster Advanced Qualification Training, CIN: K-062-0120.

Scope. This course consists of LCAC classroom, simulator and live craft instruction to include Rules of the Road, electronic/mechanical systems, navigation systems, communication equipment, casualty control, mission planning and operations.

### Prerequisites.

1. All ratings, E7 through E9.
2. Minimum ASVAB score of AR + MK + EI + GS = 204.
3. Must be fully qualified for special duty in accordance with Manual of the Medical Department (NAVMED P117) and complete NAVPERS 1306/92 Special Program Screening form.
4. Successfully complete the Naval Operational Medicine Institute (NOMI) Physical and Performance Based Measurement test at ACU-4/5.
5. Must have documentation of qualified second-class swimmer in accordance with Navy Swimming and Water Survival (NETC P1552/16). Will be required to recertify.
6. Must have SECRET security clearance.
7. Required obligated service (OBLISERV) for initial tour will be 60 months. Minimum sea tour length is 60 months.
8. Must meet body composition assessment (BCA) standards before and after convening dates.
9. Complete NAVPERS 1070/613 Administrative Remarks (page 13), stating that the member understands and agrees to conduct back-to-back sea duty.

### Special Notes.

1. American Council on Education college credit recommendation: in the lower-division, Baccalaureate/Associate - 3 semester hours in naval operations and Seamanship; 4 in Marine Systems

Technology. In the upper division baccalaureate degree category, 3 semester hours in Work Boat Operations, and 3 in Vessel Resource Management. Credit recommendations appear on the graduate's Joint Service Transcript (JST).

2. NEC 800A is awarded upon successful completion of required follow-on training course, LCAC Advanced Qualification Training, CIN: K-062-0120.

FAQs.

1. Class location. A) Personnel attending a resident course on Permanent Change of Station (PCS) orders will report to building 207, room 235 on Class Convening (CLCVN) date; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0800 on the first Monday of the class. It is advised to plan for an arrival time of 0730 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Day 1: Service uniform; Subsequent Days: NWU Type III.
4. Gear. Safety shoes for lab periods.
5. Welcome Aboard email. N/A.
6. Orders. N1 stamps orders on Day 1.

## LCAC Engineer Crew Training Course

CIN K-652-0312      CID/CDP None/0622  
Length 126 days/8-12 hours per day  
Class Capacity Minimum 1 Maximum 4

MASL Number P124324  
Classification UNCLAS  
NEC 800E

Quota Control. ACDU USN: BUPERS 402D3 - (901) 874-3845 or DSN 882-3845. Annual frequency for the course is three (3) resident classes.

Format. Taught in residence at EWTGPAC aboard both Naval Amphibious Base, Coronado and Marine Corps Base, Camp Pendleton.

Purpose. This course is designed to provide LCAC Engineers with the knowledge and skills required to operate the LCAC in accordance with the LCAC Safe Engineering and Operations (SEAOPS) manuals in normal, emergency, and casualty modes of operation; hull-borne, over water and over land. The training will include amphibious ship well deck entry and exit. It prepares the student to attend LCAC Engineer Advanced Qualification Training, CIN: K-062-0120.

Scope. This course consists of LCAC classroom, simulator and live craft instruction to include Rules of the Road, electronic/mechanical, casualty control operations.

### Prerequisites.

1. All ratings, E5 through E7.
2. Minimum ASVAB score of AR + MK + EI + GS = 204.
3. Must be fully qualified for special duty in accordance with Manual of the Medical Department (NAVMED P117) and NAVPERS 1306 complete /92 Special Program Screening form.
4. Successfully complete the Naval Operational Medicine Institute (NOMI) Physical and Performance Based Measurement test at ACU-4/5.
5. Member must be qualified as a second class swimmer in accordance with NAVPERS 15560C.
6. Required Obligated Service (OBLISERV) for initial tour will be 48 months. Minimum sea tour length is 60 months.
7. Must have SECRET security clearance.
8. Refer to MILPERSMAN 1306-949 for more information.
9. Must meet body composition assessment (BCA) standards before and after convening dates.
10. Complete NAVPERS 1070/613 Administrative Remarks (page 13), stating that the member understands and agrees to conduct back-to-back sea duty.

### Special Notes.

1. American Council on Education college credit recommendation: 2 semester hours in navigation law

(rules of the road), 3 in small boat engineering systems, 3 in small boat systems, and 3 in small boat operation (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).

2. NEC 800E is awarded upon successful completion of required follow-on training course, LCAC Advanced Qualification Training, CIN: K-062-0120.

FAQs.

1. Class location. A) Personnel attending a resident course on Permanent Change of Station (PCS) orders will report to building 207, room 235 on Class Convening date; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0800 on the first Monday of the class. It is advised to plan for an arrival time of 0730 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Day 1: Service uniform; Subsequent Days: NWU Type III.

## LCAC Mechanical Maintenance Course

CIN K-652-0314      CID/CDP None/0609  
Length 25 days/8 hours per day  
Class Capacity Minimum 1 Maximum 12

MASL Number P145555  
Classification UNCLAS  
NEC 730B

Quota Control. 1-866-827-5672, Extension 3. Ask for the GSE/GSM Detailer. Annual frequency for the course is six (6) resident classes.

Format. Taught in residence at EWTGPAC aboard Naval Amphibious Base, Coronado.

Purpose. The LCAC Mechanical Maintenance course objective is to provide LCAC maintenance personnel with the knowledge, skills and abilities to setup, maintain, and perform maintenance on the LCAC gas turbine engines, propulsion systems, lift systems, and mechanical auxiliaries.

Scope. Personnel will be provided with the technical data required for maintenance-related checkout, inspection, disassembly, assembly, troubleshooting, use of tools and test equipment, and repair of the systems and associated subsystems at the organizational level of maintenance.

### Prerequisites.

1. Must be physically qualified IAW the Navy Enlisted Transfer Manual, NAVPERS 15560 (series).
2. Must be in paygrade E3 - E8.
3. Must be serving in the AD, AE, AM, AWF, EN, GS, GSM, GSE, HT, MM, or MMA ratings.

### Special Notes.

1. Personnel are to make prior reservations via SATO or another source for a minimum of 33 days for NAB Coronado BEQ (DSN 577-3494/3495) upon receipt of orders. There is limited availability so reservations must be confirmed.
2. Personnel on Permanent Change of Station (PCS) orders report NLT 0800 on Class Convening (CLCVN) date to building 207 room 234; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099. It is advised to plan for an arrival time of 0730 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Report in Navy Service Uniform per Navy regulation, during check-in process, on the first day of class. Uniform of the day will be the Navy Working Uniform - a sufficient number of which will be required for laboratory instruction.
4. No leave will be authorized during or between training phases. Safety boots are required.
5. American Council on Education college credit recommendation: 3 semester hours in Gas turbines and 2 in Electromechanical Systems Maintenance (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
6. NEC 730B will be awarded to Navy personnel who graduate.

## LCAC Navigator Crew Training Course

CIN K-193-0436      CID/CDP None/0623  
Length 126 days/8-12 hours per day  
Class Capacity Minimum 1 Maximum 4

MASL Number P124323  
Classification UNCLAS  
NEC 800C

Quota Control. ACDU USN: BUPERS 402D3 - (901) 874-3845 or DSN 882-3845. Annual frequency for the course is three (3) resident classes.

Format. Taught in residence at EWTGPAC aboard both Naval Amphibious Base, Coronado and Marine Corps Base, Camp Pendleton.

Purpose. This course is designed to provide LCAC Navigators with the knowledge and skills required to operate the LCAC in accordance with the LCAC Safe Engineering and Operations (SEAOPS) manuals in normal, emergency, and casualty modes of operation; hull-borne, over water and over land. The training will include ship well deck entry and exit. It prepares the student to attend LCAC Navigator Advanced Qualification Training, CIN: K-062-0120.

Scope. This course consists of LCAC classroom, simulator and live craft instruction to include Rules of the Road, electronic/mechanical systems, navigation systems, communication equipment, casualty control, mission planning and operations.

### Prerequisites.

1. Source ratings: All ratings in paygrades E5-E7.
2. Minimum ASVAB score of AR + MK + EI + GS = 204.
3. Must be fully qualified for special duty in accordance with Manual of the Medical Department (NAVMED P117 Art 15-108) and complete NAVPERS 1306/92 Special Program Screening form.
4. A minimum near vision acuity of 20/200 in each eye, correctable to 20/20, is acceptable. Minimum distant visual acuity shall be no more than 20/100 uncorrected each eye and shall be correctable to 20/20 each eye.
5. Member must successfully complete the Naval Aerospace Medical Research Laboratory (NAMRL) LCAC Operator Psychomotor Test prior to assignment to the contractor training and course K-062-0100.
6. Must have documentation of qualified second-class swimmer in accordance with Navy Swimming and Water Survival (NETC P1552/16). Will be required to recertify.
7. Must have SECRET security clearance.
8. Required Obligated Service (OBLISERV) for initial tour will be 48 months. Minimum sea tour length is 60 months.
9. Complete NAVPERS 1070/613 Administrative Remarks (page 13), stating that the member understands and agrees to conduct back-to-back sea duty.

Special Notes.

1. American Council on Education college credit recommendation: 3 semester hours in navigation, 3 in rules of the road, 3 in electronic navigation, and 3 in small vessel systems (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
2. NEC 800C is awarded upon successful completion of required follow-on training course, LCAC Advanced Qualification Training, CIN: K-062-0120.

## LCU Chief Engineer Course (LCU CHENG)

CIN K-652-036	CID/CDP	None/10EW	MASL Number	None
Length 20 days/8 hours per day			Classification	UNCLAS
Class Capacity	Minimum 2	Maximum 10	NEC	None

Quota Control. Quotas made available to ACU-1/ACU-2 and RESFOR by EWTGPAC Quota Management Office. After 1630, on weekends, or holidays, students shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays checking in for class. To request seats - in order of precedence: (1) [eENTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/ 5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. Taught in residence by LCU Branch instructors at EWTGPAC/ACU-1 aboard Naval Amphibious Base, Coronado.

LCU Sailors attached to Assault Craft Units One and Two, and Naval Beach Unit Seven make up the primary student population.

Purpose. To provide Enginemen (EN), Machinist Mate (MM), and Electrician's Mate (EM) personnel in the E-5 to E-7 paygrades with the knowledge, skills and abilities required to manage engineering programs and procedures for operation, casualty control and maintenance associated with Landing Craft, Utility (LCU 1601-class).

Scope. The course is designed to produce qualified LCU Chief Engineers. Students will manage all engineering programs as they apply to the LCU, and will operate, troubleshoot and inspect all main propulsion and auxiliary equipment. Classes will be held at EWTGPAC and aboard live LCUs at ACU-1. Students will demonstrate their proficiency with labs and practical applications aboard live LCU.

### Prerequisites.

1. Paygrades E-5 through E-7
2. Rate: EN, MM, EM
3. No security clearance required
4. Second Class Swimmer
5. Normal color perception

### Special Notes.

1. Personnel on Permanent Change of Station (PCS) orders report NLT 0800 on Class Convening (CLCVN) date to Building 207 room 220; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Uniform of the day with a sufficient number of uniforms for class periods and sufficient working uniforms and safety shoes for lab periods.
3. Students will be TDY/TAD under instruction.
4. Trainees shall provide their own steel-toed shoes.

5. Students will not be released before 1600 hours on the final day of the course and shall make travel arrangements accordingly. **Students reporting with departure flights prior to 1600 on the last day of the course who cannot arrange a later departure flight will be dropped.**

## **N77 U.S. Navy Training Division**

### **N772 Strategic Sealift Branch**

**Organization.** The Strategic Sealift Division is staffed with contracted personnel having extensive experience in the Cargo Offload and Discharge System (COLDS) field.

**General Information.** The Strategic Sealift Division is responsible for providing both classroom and underway instruction in support of ship-to-shore logistics. These courses train both Reserve & Active Duty personnel from Amphibious Construction Battalion One, Assault Craft Units, Beachmaster Units and Underwater Construction Teams in the operation and maintenance of the Container Off-Load and Transfer System (COTS), a component of the Cargo Off-Load and Discharge System (COLDS). The courses presently supporting this program provide emphasis in hands-on operation and maintenance.

**Course Coordination.** The Strategic Sealift Division can be contacted for specific course content or information requiring subject matter expertise, specific course content or information requiring subject matter expertise at (858) 867-9449.

## Amphibious Bulk Liquid Transfer System (ABLTS)

CIN S-821-0024      CDP Res/MTT 732Y/7342  
Length 10 days/8-10 hours per day  
Class Capacity Minimum 15 Maximum 20

MASL Number      None  
Classification      UNCLAS  
NEC      None

Quota Control. Quotas made available to host command and RESFOR by EWTGPAC Quota Management Office. After 1630, on weekends, or holidays, students shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays in checking in for class. The order of precedence for requesting seats shall be (1) [eNTRS](#) by way of Training Officers/Petty Officers, [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), (619) 437-2844/5679/5872, or (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. Taught in residence at EWTGPAC and offered as a Mobile Training Team (MTT).

Purpose. To train Amphibious Construction Battalion (ACB) and Assault Craft Unit (ACU) personnel (active and reserve) in the operation and maintenance in the Amphibious Bulk Liquid Transfer System (ABLTS) installation and retrieval/operation and maintenance. This system is used in Maritime Prepositioning Force operations.

Scope. This course provides theory and hands-on training for the operation and maintenance concepts (organizational and intermediate) of ABLTS installation and retrieval.

### Prerequisites.

1. Personnel assigned to an Amphibious Construction Battalion.
2. Second class swimmer qualification must be certified on students' orders.

### Special Notes.

1. Commands sending personnel must ensure that as a minimum one OIC, E7 or above, and one pilot must be included in the quotas.
2. American Council on Education college credit recommendation: 3 semester hours in basic pipeline operations (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
3. Students will not be released before 1600 hours on the final day of the course and shall make travel arrangements accordingly. **Students reporting with departure flights prior to 1600 on the last day of the course who cannot arrange a later departure flight will be dropped.**

### FAQs.

1. Class location. A) Personnel attending aboard Naval Amphibious Base (NAB), Coronado will report on Class Convening (CLCVN) date to building 207, room 231 - Expeditionary Warfare Training Group,

Pacific located at 3423 Guadalcanal Road San Diego, California 92155-5099. B) MTT students report to the EWTGPAC Senior Instructor at the hosting unit.

2. Report time. NLT 0730 on the first Monday of the class. It is advised to plan for an arrival time of 0700 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Service uniform of the day.
4. Gear. Active duty personnel will provide their own helmet, life jacket, and rain gear. EWTGPAC or host unit will provide a helmet and a life jacket to reservists. Trainees must wear steel-toe shoes.
5. Welcome Aboard email. N/A.
6. Orders. N1 stamps orders on Day 1.

## Cummins OEM Factory QSM-11 Engine

CIN S-030-0001	CIN/CDP None/18HH	MASL Number	None
Length 2 .5 days/8 hours per day		Classification	UNCLAS
Class Capacity Minimum 4 Maximum 8		NEC	None

Quota Control. Quotas made available to ACU-1/ACU-2 and RESFOR by EWTGPAC Quota Management Office. After 1630, on weekends, or holidays, students shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays in checking in for class. To request seats - in order of precedence: (1) [eNTRS](mailto:eNTRS) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/ 5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. Taught in residence at EWTGPAC.

Purpose. To train qualified Assault Craft Unit (ACU) personnel (active and reserve) in the respective knowledge and skills necessary to perform selected Intermediate "O" & "I" level maintenance tasks on the Maritime Pre-positioning Force Utility Boat (MPFUB) Cummins QSM-11 Engine. These tasks include all new components, service procedures, and diagnostic testing. The students will demonstrate their knowledge and skills using actual equipment and observing all safety precautions, in accordance with the applicable Technical Manuals.

Scope. Personnel will be provided with the knowledge and skills necessary to operate and maintain the MPFUB Cummins QSM-11 Engine to meet mission requirements. This will cover the complete engine disassembly / assembly procedures on the Cummins QSM-11 engine. This program will focus on all special service procedures required to properly perform repairs to the engine. Fuel system and clean care steps will be practiced during class. Course content includes: Engine Operations, Major Component Maintenance/Troubleshooting, Hands-On Engine Training, Marine Engine secondary systems (intake air, exhaust, lube oil, cooling, fuel and electronics) operation and diagnostics. Maintenance, operation and installation requirements, marine specific components, sea trail and marine application requirements. Working with Insight, Data Link Adapters and Electronic Control Modules. The students will demonstrate their knowledge and skills using actual equipment and observing all safety precautions, in accordance with the applicable Technical Manuals.

### Prerequisites.

1. E4 and above.
2. Applicants should have at least one year of obligated service at class convening date or in the case of Selected Reserves (SELRES) personnel, have been screened to determine likelihood of continuance in the applicable ACU unit for more than one year.

### Special Notes.

1. Students unable to check-in on time for classes shall contact EWTGPAC at (619) 437-5679 (DSN 577-5679) during normal working hours. After 1600, on weekends, or holidays, students shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays in checking in for class.

2. Trainees shall provide their own steel-toed shoes.
3. Students will not be released before 1600 hours on the final day of the course and shall make travel arrangements accordingly. **Students reporting with departure flights prior to 1600 on the last day of the course who cannot arrange a later departure flight will be dropped.**

To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

**Format.** Taught in residence at EWTGPAC and offered as a Mobile Training Team (MTT).

**Purpose.** To train selected U.S. Naval Reserve and Active Duty Boatswain's Mate (BM) and Quartermaster (QM), assigned to Amphibious Construction Battalion (ACB) as INLS Craftmasters in support of Maritime Prepositioning Force (MPF) operations.

**Scope.** To provide Amphibious Construction Battalion (ACB) personnel, E5 and above, with the knowledge and skills necessary to prepare the Warping Tug (WT)/Causeway Ferry (CF) for launch/recovery, perform advanced Machinery Control System (MCS) operations, advanced WT/Causeway Ferry Power Module (CFPM) operations, advanced CF operations, and advanced WT/CF navigation.

### Prerequisites.

1. Second class swimmer qualification and normal color perception must be certified on students' orders.
2. Successful completion of the Improved Navy Lighterage System (INLS) Operator Basic (K-062-0113) course.
3. Applicants should have at least one year of obligated service at class convening date or in the case of Selected Reserve (SELRES) personnel, have been screened to determine likelihood of continuance in the applicable PHIB CB unit for more than one year.

### Special Notes.

1. Second class swimmer qualification, normal color perception, and date of completion of the Improved Navy Lighterage System (INLS) Operator Basic (K-062-0113) course must be certified on students' orders.
2. American Council on Education college credit recommendation: 3 semester hours in Vessel Operations and 3 in Seamanship (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
3. Students will not be released before 1600 hours on the final day of the course and shall make travel arrangements accordingly. **Students reporting with departure flights prior to 1600 on the last day of the course who cannot arrange a later departure flight will be dropped.**

FAQs.

1. Class location. A) Personnel attending aboard Naval Amphibious Base (NAB), Coronado will report on Class Convening (CLCVN) date to building 207, Room #220 - Expeditionary Warfare Training Group, Pacific located at 3423 Guadalcanal Road San Diego, California 92155-5099. B) MTT students report to the EWTGPAC Senior Instructor at the hosting unit. B) MTT students report to the EWTGPAC Senior Instructor at the hosting unit
2. Report time. NLT 0730 on the first Monday of the class; recommend planning for 0700 arrival to accommodate bridge/gate traffic at NAB.
3. Uniform. Service uniform of the day.
4. Gear. Active duty personnel will provide their own helmet, life jacket, and rain gear. EWTGPAC or host unit will provide a helmet and a life jacket to reservists. Trainees must wear steel-toe shoes.
5. Welcome Aboard email. N/A.
6. Orders. N1 stamps orders on Day 1.

## Improved Navy Lighterage System (INLS) Deck Supervisor

CIN K-551-0101	CDP Res/MTT 04H9/04HA	MASL Number	None
Length 15 days/8-10 hours per day		Classification	UNCLAS
Class Capacity Minimum 3 Maximum 12		NEC	W11A

Quota Control. Quotas made available to ACB-1 and RESFOR by EWTGPAC Quota Management Office. Final student assignments submitted to EWTGPAC Quota Management Office from ACB-1/ACB-2. After 1600, on weekends, or holidays, students shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays in checking in for class. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. Taught in residence at EWTGPAC and offered as a Mobile Training Team (MTT).

Purpose. To train selected U.S. Naval Reserve and Active Duty Boatswain's Mate (BM), and Quartermaster (QM) assigned to Amphibious Construction Battalion (ACB) as INLS Deck Supervisors in support of Maritime Prepositioning Force (MPF) operations.

Scope. To provide Amphibious Construction Battalion (ACB) personnel, E4 and above, with the knowledge and skills necessary to prepare the INLS Warping Tug (WT)/Causeway Ferry (CF) for launch/recovery, perform advanced WT/CF cargo handling operations, basic Machinery Control System (MCS) operations, basic WT/Causeway Ferry Power Module (CFPM) operations, basic CF operations, and basic WT/CF navigation.

### Prerequisites.

1. Second class swimmer qualification and normal color perception must be certified on students' orders.
2. Applicants should have at least one year of obligated service at class convening date or in the case of Selected Reserves (SELRES) personnel, have been screened to determine likelihood of continuance in the applicable PHIB CB unit for more than one year.
3. Navy E-Learning courses:
  - a. Introduction to Improved Navy Lighterage System (CSFE-INLS-010)
  - b. INLS Machinery Control System (CSFE-INLS-020)

Due no earlier than thirty days prior to the course convening. If students report to class without having completed the requisite E-Learning courses, they will be required to complete them by training day 3 of the course. Failure to compete E-Learning courses will result in removal from the course and return to parent command.

If a prospective student finds these courses unavailable, please contact the COLDS Learning Standards Officer at (619) 437-3455 for instructions on how to complete the requirement or coordinate a waiver

Special Notes.

1. Second class swimmer qualification and normal color perception must be certified on students' orders.
2. American Council on Education college credit recommendation: 3 semester hours in Industrial Safety and 3 semester hours in Seamanship (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
3. Students will not be released before 1600 hours on the final day of the course and shall make travel arrangements accordingly. **Students reporting with departure flights prior to 1600 on the last day of the course who cannot arrange a later departure flight will be dropped.**

## Improved Navy Lighterage System (INLS) Lighterage Repair Facility (LRF) Senior Technician Course

CIN J-062-0034	CDP Res/MTT 06HU/None	MASL Number	None
Length 8 days/8 hours per day		Classification	UNCLAS
Class Capacity Minimum 3 Maximum 12		NEC	None

**Quota Control.** Quotas made available to ACB-1 and RESFOR by EWTGPAC Quota Management Office. After 1600, on weekends, or holidays, students shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays in checking in for class. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 ( DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

**Format.** Taught in residence at EWTGPAC.

**Purpose.** The purpose of this course is to train selected U.S. Navy Reservists, Naval Amphibious Construction Battalion (ACB) and Naval Beach Group (N BG) personnel, E5 and above, with advanced trouble shooting, corrective maintenance, knowledge and skills necessary to support MPF operations to Maintain Machinery Control System, Maintain Main Propulsion Engine, Maintain Electrical Systems, Maintain Auxiliary Systems, and Operate Communication System in accordance with applicable references.

**Scope.** To provide Naval Amphibious Construction Battalion (ACB) and Naval Beach Group (N BG) personnel, E5 and above, with the knowledge and skills necessary to troubleshoot and maintain various electronic and electrical component systems of the INLS. This course is focused on tasks that INLS Lighterage Repair Facility personnel would accomplish to assist INLS craft Engineers to perform field repairs done with spares and tools located in the Lighterage Repair Facility in accordance with applicable references. The course content will include the following, in accordance with approved technical manuals: Maintain/Troubleshoot Machinery Control System, Maintain/Troubleshoot Main Propulsion Engine, Maintain/Troubleshoot Electrical System, Maintain/Troubleshoot Auxiliary System, Maintain/Troubleshoot/Operate Communication System in accordance with applicable references.

### Prerequisites.

1. E5 and above ET, IT or EM and ACB Logistics Repair Officers (LRO must complete INLS Engineering Technician I and INLS Engineering Technician II).
2. Navy E-Learning courses:
  - a. Introduction to Improved Navy Lighterage System (INLS) web-based training (CSFE-INLS-010)
  - b. Introduction to INLS Machinery Control System (MCS) (CSFE-INLS-020).
3. One year of obligated service at class convening date or in the case of Selected Reserves (SELRES) personnel, have been screened to determine likelihood of continuance in the applicable unit for more than one year.

If a prospective student finds these courses unavailable, please contact the COLDS Learning Standards Officer at (619) 437-3455 for instructions on how to complete the requirement or coordinate a waiver.

Special Notes.

1. Students will be TDY/TAD under instruction.
2. American Council on Education college credit recommendation: 3 semester hours in Electromechanical Systems Maintenance and Troubleshooting. (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
3. Students will not be released before 1600 hours on the final day of the course and shall make travel arrangements accordingly. **Students reporting with departure flights prior to 1600 on the last day of the course who cannot arrange a later departure flight will be dropped.**

FAQs.

1. Class location. Personnel attending a resident will report to building 207, room 124A, Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099 on Class Convening (CLCVN) date.
2. Report time. NLT 0730 on the first Monday of the class. It is advised to plan for an arrival time of 0730 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Service uniform of the day.
4. Gear. Active duty personnel will provide their own helmet, life jacket, and rain gear. EWTGPAC or host unit will provide a helmet and a life jacket to reservists. Trainees must wear steel-toe shoes.
5. Welcome Aboard email. N/A.
6. Orders. N1 stamps orders on Day 1.

## Inflatable Boat Operator Course

CIN K-062-2100

CDP Res/MTT 03JZ/05T5

MASL Number

None

Length 5 days

Classification

UNCLAS

Class Capacity Minimum 6 Maximum 12

NEC

None

Quota Control. Quotas made available to host command and RESFOR by EWTGPAC Quota Management Office. After 1600, on weekends, or holidays, students shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays in checking in for class. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. Taught in residence at EWTGPAC and offered as a Mobile Training Team (MTT). This course has been designated as **High Risk Training**.

Purpose. To provide naval personnel with the knowledge and skills necessary to perform pre-starts and post maintenance of the inflatable boat, basic maneuvers with the inflatable boat, launch and land an inflatable boat through the surf zone, and recover an inflatable boat after capsizing.

Scope. Inflatable Boat Operator Course is a **High Risk** course. Personnel will be provided with the knowledge and skills necessary to safely operate the inflatable boat in mild to moderate sea conditions, in and out of the surf zone, and all safety requirements applicable for the safe operation of the inflatable boat to meet mission requirements.

### Prerequisites.

1. Second class swimmer qualification to be on student orders.
2. All students must present a completed High Risk Student Medical Screening Form NETCINST 1500.13(series) ([NETC 1500/5](#)) on the first day of class.
3. The completed form ([NETC 1500/5](#)) shall be signed by competent medical authority and must be completed within thirty days prior to attending High-Risk training.

### Special Notes.

1. This training is considered **High-Risk Training**; personnel must be comfortable working in surf conditions and be competent swimmers.
2. Inflatable Boat Operator Course K-062-2100 is designated as **High Risk** IAW NETCINST 1500.13(series). All students must present a completed, High Risk Student Medical Screening Form [NETC 1500/5](#) on the first day of class. This questionnaire is designed to alert instructors and medical personnel of any condition that may endanger a student's health or that of others during high risk training. Each completed form shall be signed by competent medical authority and must be completed

No Earlier Than (NET) thirty-days-prior to engaging in High-Risk training. Non-compliance may result in a drop from training due to safety reasons. Students answering "YES" to questions 1-7 on form [NETC 1500/5](#) require a decision regarding suitability for participation in High-Risk training by competent medical authority. Students must NOT be in a "Light or Limited" duty status. Female students may not attend the course if pregnant. Students may not be on any type of medication that causes drowsiness, dizziness, visual disturbances, decreased muscle coordination, or decreased motor function. Students should expect a high rate of physical exertion during the practical applications (aka **labs**), in variable temperature environments. Final determination regarding suitability for participation in high risk training remains with EWTGPAC.

**3. Students will not be released before 1600 hours on the final day of the course and shall make travel arrangements accordingly. Students with departure flights prior to 1600 on the last day of the course who cannot arrange a later flight will be dropped.**

FAQs.

1. Class location. A) Personnel attending a resident will report to building 207, room 229 - Expeditionary Warfare Training Group, Pacific located at 3423 Guadalcanal Road San Diego, California 92155-5099 on Class Convening (CLCVN) date. B) MTT Students report to the EWTGPAC Senior Instructor at ACU-2, Joint Expeditionary Base, Little Creek-Fort Story, VA.
2. Report time. NLT 0730 on the first Monday of the class . It is advised to plan for an arrival time of 0700 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Service uniform of the day.
4. Gear. EWTGPAC will provide all necessary Personal Protective Equipment (PPE) needed for the students to attend the course to include wetsuits, boating gear, and helmets. Trainees are required to provide their own appropriate swimwear.
5. Welcome Aboard email. N/A.
6. Orders. N1 stamps orders on Day 1.

## LARC-V Officer-In-Charge

CIN S-062-1001	CDP Res/MTT 18HF/18HG	MASL Number	None
Length 5 days/8-10 hours per day		Classification	UNCLAS
Class Capacity Minimum 2 Maximum 10		NEC	None

**Quota Control.** Quotas made available to BMU-1/BMU-2, NBU-7 and RESFOR by EWTGPAC Quota Management Office. After normal working hours (1600-0700), on the weekend and holidays students shall contact the Command Duty Officer (CDO) at (619) 805-0460 for any delays in checking in for class. To request seats - in order of precedence: (1) [eNTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

**Format.** Taught in residence at EWTGPAC and offered as a Mobile Training Team (MTT).

**Purpose.** The purpose of the LARC-V Officer-In-Charge course is to provide Beachmaster Unit (BMU), Naval Beach Unit (NBU) and Naval Beach Group (NBG) personnel, E6 and above, with the knowledge and skills necessary to supervise the operation and maintenance of the LARC-V. The students will demonstrate their knowledge and skills using actual equipment and observing all safety precautions in accordance with applicable references.

**Scope.** To provide Beachmaster Unit (BMU), Naval Beach Unit (NBU) and Naval Beach Group (NBG) supervisory personnel, E6 and above, with the knowledge and skills necessary to supervise configuring for operations, maneuvers, assembling, operating, navigating and maintaining the LARC-V.

### Prerequisites.

1. E6 and above.
2. Second class swimmer qualification and normal color perception required to be on students' orders.
3. Applicants should have at least one year of obligated service at class convening date or in the case of Selected Reserves (SELRES) personnel, have been screened to determine likelihood of continuance in the applicable BMU unit for more than one year.

### Special Notes.

1. Students unable to check-in on time for classes shall contact EWTGPAC at (619) 437-5679 (DSN 577-5679) during normal working hours. After normal working hours (1600-0700), during weekends or holidays students shall contact the Command Duty Officer (CDO) at (619) 805-0460.
2. Second Class Swimmer qualification and normal color perception must be certified on students' orders.
3. Students will not be released before 1600 hours on the final day of the course and shall make travel arrangements accordingly. **Students reporting with departure flights prior to 1600 on the last day of the course who cannot arrange a later departure flight will be dropped.**

FAQs.

1. Class location. A) Personnel attending a resident will report to building 207, room 229 - Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099 on Class Convening (CLCVN) date. B) MTT students report to the EWTGPAC Senior Instructor at the hosting unit.
2. Report time. NLT 0730 on the first Monday of the class . It is advised to plan for an arrival time of 0700 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Service uniform of the day.
4. Gear. Active duty personnel will provide their own helmet, life jacket, and rain gear. EWTGPAC or host unit will provide a helmet and a life jacket to reservists. Trainees must wear steel-toe shoes.
5. Welcome Aboard email. N/A.
6. Orders. N1 stamps orders on Day 1.

## N77 U.S. Navy Training Division

### N773 Amphibious CIC Boat Control Branch

Organization. The Amphibious Combat Information Center (CIC) Boat Control Team Training (ABCTT) legacy and MKII Courses are staffed by contracted and active duty personnel having experience in waterborne ship-to-shore movement of amphibious craft.

General Information. This course is targeted to the CIC teams of amphibious warfare ships having required operational capability for Primary Control Ship (PCS), including LPD, LSD, LHA, LHD, Army landing craft, LCU, and LSV.

Course Coordination. Contact the ABCTT lead instructor for specific course content or information requiring subject matter expertise. Contact the ABCTT staff for scheduling, coordination and available dates.

<u>AREA</u>	<u>DSN</u>	<u>COMMERCIAL</u>
Course Supervisor	577-2439	(619) 437-3455
ABCTT Instructors	577-2439	(619) 437-2439

## Amphibious CIC Boat Control Team Training

CIN J-221-0043 Rev. C	CID/CDP	None/07PE	MASL Number	None
Length 7 days/8 hours per day			Classification	FOUO/NATO
Class Capacity Minimum 10 Maximum 12			NEC	None

Quota Control. EWTGPAC - (619) 437-2439 or DSN 577-2439 to schedule your ship, to be followed by student registration via [eNTRS](#).

Format. Taught in residence at NAB, Bldg. 207, Room 148.

Purpose. To provide training for the Combat Information Center (CIC) Amphibious Boat Control Team Training (ABCTT) and Amphibious Ship to Shore Movement (STS) certification.

Scope. This course is offered to CIC teams for amphibious warfare ships having required operational capability for Primary Control Ship (PCS), (LSD and LHD) (Army, LCU and LSVs). Team members may be E-1 through O-5 and need not be of the OS rating. Each team must have a minimum of 10 members who are familiar with CIC facilities and functions, one of which is an E7 or above designated as Evaluator by parent command. This course provides classroom instruction and practical work for Amphibious CIC Team Training in the basic methods and procedures used in controlling boat groups during amphibious operations. Exercises are conducted by the team in a CIC mock-up under supervision of instructors. The course emphasizes development of team proficiency through the conduct of simulated problems.

### Prerequisites.

1. Course is offered to all amphibious warfare ships which have a required operational capability as Primary Control Ship (PCS).
2. Ship's teams must have at least 10 personnel, including one E7 or above to act as Evaluator. For LPD 17 class the Evaluator can be an E6 with shipping officer qualification and CO's endorsement.
3. All personnel are expected to have basic CIC PQS qualifications for SPA-25 Operator (if applicable) and R/T Talker.
4. IAW FLTMPS at least one team member must have attended the SPAWAR AADS Operator course (W-101-1110).
5. Other ships may attend, limited only by availability.

### Special Notes.

1. Students should report to the Course Supervisor at EWTGPAC NLT 0730 on the day of class convening in building 207 (near Pier 22), room 148 at Naval Amphibious Base Coronado.
2. Check-in is in the Navy Working Uniform. For more information, call (619) 437-2439.
3. Parking is very limited on base, therefore students are encouraged to carpool or park at/near the NAB gym or at the parking lot for Building 401.

## N78 Marine Corps Training Division

Organization. The Marine Corps Training Division provides instruction in individual and unit skills related to expeditionary operations, specifically those skills related to the water environment. The Marine Corps Training Division is organized with an Amphibious Raid Branch, Water Survival Branch and a Maintenance branch. The Amphibious Raid and Water Survival Branch, which contain both Infantry Company Small Boat Raid and Enhanced Combat Rubber Raiding Craft (E-CRRC) courses as well as Water Survival courses, are responsible for the preparation, development and conduct of formal instruction within its respective functional area. The Maintenance Branch provides E-CRRC and 55hp motor repair courses as well as support to the Amphibious Phase of the Basic Reconnaissance Course. Additionally, the Marine Corps Training Division can draw upon the expertise of the USMC Skills Training Department if special requirements are identified.

General Information. In addition to the courses described in this catalog, the Marine Corps Training Division has the capability of providing instruction extracted from larger courses or in areas of expertise acquired through research and preparation. For example, a specially tailored E-CRRC course can be created for Special Operations Forces.

Course Coordination. Course Chiefs can be contacted for specific course content or information requiring subject area expertise. Questions concerning course content may be addressed to the individual training branches.

Length	45 days/8-15 hours per day			Classification	UNCLAS
Class Capacity	T/O infantry company				

Quota Control. EWTGPAC N78 Raid OIC at (619) 437-2975.

Format. This program can only be taught at EWTGPAC aboard Naval Amphibious Base, Coronado because of facility, support, and coordination requirements.

Purpose. This program trains infantry companies in the doctrine, techniques and procedures used in conducting small boat, over-the-horizon amphibious raids and the skills necessary to operate, maintain and employ small boats.

### Scope.

1. This program trains unit personnel in the skills necessary to plan, organize and execute a small boat, over-the-horizon, amphibious raid. The curriculum consists of the combination of several independent courses taught at EWTGPAC: the Combat Rubber Raiding Craft Repair Course, the Maritime Navigation Course, the Basic Scout Swimmer Course, and the Coxswains Skills Course. The company staff will receive instruction in Company Staff Operations Overview. All personnel will participate in the Infantry Company Small Boat Raid Course. The contents of these courses are identified in their respective sections of this catalog.
2. The program begins when the unit mechanics arrive and receive the E-CRRC Repair Course, the unit navigators arrive and receive the Maritime Navigation Course, the unit scout swimmers arrive and receive the Basic Scout Swimmer Course, and the unit coxswains receive the Coxswain Skills (E-CRRC) Course. Following the conclusion of these courses, the graduates join the remainder of the unit and receive the Infantry Company Small Boat Raid Course. The program culminates with a company-size maritime navigation amphibious raid using small craft.

Prerequisites. Coxswains, navigators, mechanics and scout swimmers must meet the prerequisites established for the individual courses and all other personnel must be qualified as WS-I or higher in accordance with MCO 1500.52(series).

Special Equipment. The unit must provide organic command, control, communications and logistics support. Additionally, the unit must provide any special equipment desired for use during the extensive salt-water training periods (e.g., Gore-Tex over garments, wetsuits, etc.).

### Special Notes.

1. An entry-level swim evaluation will be administered to all personnel prior to the commencement of training.
2. Uniform: Full utility uniform with complete field equipment.

## Combat Rubber Raiding Craft Repair Course

CIN K-652-1200

Length 10 days

Class Capacity Minimum 4 Maximum 12

CID/CDP N30H4M1/01EG

MASL Number

P124008

Classification

UNCLAS

MOS

None

Quota Control. Resident – EWTGPAC at (619) 437-3845. Normal annual frequency for the course is two resident classes. Classes are typically executed as part of a comprehensive nine week Amphibious Raid Package that trains infantry companies preparing to deploy as boat companies with the 31st Marine Expeditionary Unit.

**Note:** For units with the Enhanced, Combat Rubber Raiding Craft (E-CRRC) as part of their TO&E, stand-alone E-CRRC repair classes are available with advanced coordination with EWTGPAC.

Format. This course is taught in-residence at EWTGPAC aboard Naval Amphibious Base, Coronado.

Purpose. To train Marines how to perform first through fourth echelon rubber and outboard engine maintenance.

Scope. Instruction includes Preventive Maintenance Checks and Services (PMCS), Limited Technical Inspection (LTI), valve and patch repair, pressure and leak tests for the E-CRRC, and PMCS, LTI and troubleshooting and repair of the 55 horsepower outboard engine.

### Prerequisites.

1. Open to any rank or MOS depending on the need of the student's parent command.
2. Students must be qualified and certified on orders as WS-I or higher in accordance with MCO 1500.52(series), meet Marine Corps height, weight and body fat standards and must be able to pass the Marine Corps Physical Fitness Test.
3. Prerequisites will NOT be waived. Students not meeting these prerequisites will be returned to their parent command.

### Special Notes.

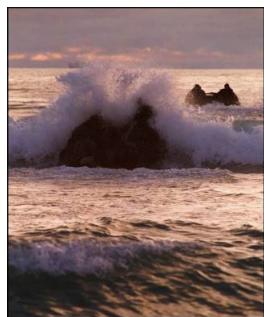

1. Uniform: Full utility uniform with complete field equipment.

## Coxswain Skills (E-CRRC) Course

CIN K-2E-8111	CID/CDP N3081K1/585B	MASL Number	P145039
Length 20 days/8-12 hours per day		Classification	UNCLAS
Class Capacity Minimum 12 Maximum 28		MOS	0316

Quota Control. EWTGPAC at (619) 437-2975. Normal annual frequency for the course is two resident classes. Classes are typically executed as part of a comprehensive nine week Amphibious Raid Package that trains infantry companies preparing to deploy as boat companies with the 31st Marine Expeditionary Unit. Stand-alone Basic Coxswain Skills Course classes are available with advanced coordination with EWTGPAC and approval from training command.

Format. This course can only be taught at EWTGPAC aboard Naval Amphibious Base, Coronado because of facility, support, and coordination requirements.

Purpose. This course trains students in the skills necessary to operate and maintain Combat Rubber Raiding Craft (E-CRRC) and its associated engine.

Scope. This course is designed to teach students the skills necessary to operate and maintain the E-CRRC and related outboard engines. The curriculum consists of general coxswain skills, basic navigation, launch and recovery techniques and procedures, operations in the surf zone, and small boat tactics.

### Prerequisites.

1. Students must have a minimum of 12 months active service remaining upon completion of the course.
2. Qualified and certified on orders as Water Survival Intermediate (WS-I) or higher in accordance with MCO 1500.52(series).
3. Normal color vision and medically qualified to participate in rigorous physical and salt water training.
4. Pre-screening note: Before students are allowed to train in the water, the students will be screened to ensure they have the aquatic abilities to safely take part in waterborne training. The pre- screening (in full utilities with boots) will consist of:
  - a. Complete a 250 meter continuous swim using any stroke.
  - b. Rescue a simulated victim wearing a Personal Floatation Device and tow them 25 meters to safety. Any stroke may be used.
  - c. Stay on the surface for 10 minutes without the use of a floatation device.

Special Equipment.

3 Sets of Utilities	1	Towel
2 Utility Covers	3	Pens
1 Boonie Cover	3	Pencils
1 Watch Cap	1	Wristwatch
2 Pair Combat Boots	1	Small Bag (gym)
6 T-Shirts (green)	1	Pair Running Shoes
6 Pair Socks	2	Combination Locks
1 Sweat Shirt	1	Waterproof Bag
1 Set Gortex		Health & Comfort Items
1 Flashlight		Sun Screen
12 MREs		Liberty Attire
1 Whistle		

Special Notes.

1. Uniform: Full utility uniform for training.
2. American Council on Education college credit recommendation: 3 semester hours in Seamanship, 1 in navigation (maritime) and 3 in Outboard Engine Maintenance (Lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).

## Infantry Company Small Boat Raid Course

CIN K-2E-3745      CID/CDP N30INC1/585E  
 Length 10 days/8-15 hours per day  
 Class Capacity Minimum N/A Maximum 144

MASL Number P124019  
 Classification UNCLAS  
 MOS None

Quota Control. EWTGPAC at (619) 437-2975. Normal annual frequency for the course is two resident classes. Classes are typically executed as part of a comprehensive nine-week Amphibious Raid Package that trains infantry companies preparing to deploy as boat companies with the 31st Marine Expeditionary Unit.

Format. This course can only be taught at EWTGPAC aboard Naval Amphibious Base, Coronado because of facility, support and coordination requirements.

Purpose. This course trains infantry companies in the doctrine, techniques, and procedures to conduct a small boat amphibious raid. This is the capstone exercise of the Infantry Company Small Boat Training Program offered at Expeditionary Warfare Training Group Pacific and it prepares the company for certification as a small-boat company at I Marine Expeditionary Force Operations Training Group (I MEF EOTG).

Before this course, select students will attend four separate individual skills courses:

1. Small Craft Repair Course (CID N30H4M1)
2. Maritime Navigation Course (CID N30H4A1)
3. Scout Swimmer Course (CID N30L8K1)
4. Coxswain Skills Course (CID N30 N3081K1)

At the conclusion of these individual skills courses, the graduates will join the remainder of the unit to participate in this integrated company-level training to bridge the gap between individual skills training and collective certification at I MEF EOTG. This will be the first opportunity that the unit will work collectively as a small-boat company.

Scope. This course trains unit personnel in the skills necessary to plan, organize, and execute a small boat amphibious raid. The company staff and billet holders at platoon sergeant level and higher) receive instruction on small boat raid company operations, planning, and logistical requirements to execute an over-the-horizon amphibious raid.

Two days are spent on staff planning covering:

1. Raid company overview
2. Shipboard considerations
3. Raid planning and preparation
4. Enhanced Combat Rubber Raiding Craft (E-CRRC)
5. Maintenance considerations
6. E-CRRC launch and recovery
7. Small boat transit
8. Techniques of clandestine landing and withdrawal
9. Surf observations
10. Small boat training and safety

The integrated collective training consists of:

- Planning a small boat raid
- Navigation planning
- Issuing the annex
- Ship's brief
- Familiarization with the E-CRRC
- Boat team responsibilities
- Boat inspection
- Packing and lashing of the E-CRRC
- Landing Craft Unit (LCU) launch/recovery and lashing/stowing
- Immediate actions
- Formations
- Surf observation
- Surf passages (day and night)
- E-CRRC landing procedures
- Paddle drills
- Caching
- Actions on the Beach Landing Site (BLS)
- Clandestine landing and withdrawal (day and night)
- Broaching
- Surf observation
- Surf passages (day and night)

Training culminates with two full-mission profiles - beach and urban - raid exercises conducted on targets in the local area.

#### Prerequisites.

1. All students must be qualified and certified on their orders as WS-I or higher in accordance with MCO 1500.52(series). See pre-screening note below:
2. Unit coxswains must be graduates of the Coxswain Skills Course (CID N3081K1).
3. Unit navigators must be graduates of the Maritime Navigation Course (CID N30H4A1).
4. Unit scout swimmers must be graduates of the Scout Swimmer Course (CID N30L8K1).

#### Pre-screening note.

Before students are allowed to train in the water, the students will be screened to ensure they have the aquatic abilities to safely take part in waterborne training. The pre-screening (in full utilities with approved footwear) will consist of the following:

1. Complete a 250 meter continuous swim in 30 minutes or less using any stroke.
2. Swim 25 meters to a simulated victim wearing a Personal Floatation Device. Once the student reaches the victim he will then tow the victim 25 meters to safety. Any stroke may be used. This whole evolution should take place in 10 minutes or less.
3. Stay on the surface for 10 minutes without the use of a floatation device.

#### Special Equipment.

The unit must provide organic command, control, communications and logistics support to include small craft (E-CRRC).

4 Sets of Utilities	1	Set Gortex
2 Utility Covers	1	Flashlight
1 Boonie Cover	1	Whistle
1 Watch Cap	1	Towel
2 Pair Combat Boots	1	Pocket Knife
6 Pair Drawers	3	Pens
6 T-Shirts (green)	3	Pencils
6 Pair Socks (green)	1	Wristwatch

1	Sweatshirt	1	Pair Running Shoes
1	Pair Gloves (black) with Liners	2	Combination Locks
2	Canteens with Covers	1	Waterproof Bag
1	Cartridge Belt		Reporting Orders
			Health and Comfort Items
			Sun Glasses
			Sun Screen
			Liberty Attire

Special Notes.

Uniform: Full utility uniform with complete field equipment.

## Marine Corps Instructor of Water Survival (MCIWS)

CIN K-010-3921	CID/CDP N30L9N1/585J MTT N30L9NM/646R	MASL Number Classification MOS	None UNCLAS 0918
Length	15 days/8-10 hours per day		
Class Capacity	Minimum 6 Maximum 30		

**Quota Control.** MCTIMS – G-1 TECOM at (703) 784-2508 or DSN 278-2508. West coast, Hawaii, and Japan-based, unit S3 training sections send [MARFORPAC G3 Nominations](#) to [SMB.MARFORPAC.Formal@USMC.mil](mailto:SMB.MARFORPAC.Formal@USMC.mil). The annual frequency for the course is 6 resident classes, 1 Hawaii, and 1 Okinawa Mobile Training Team.

**Course POC.** (619) 437-3177/2975.

**Format.** This course will be taught at the MCAS Miramar Training Tank or by a Mobile Training Team at the requesting unit's location. Six resident courses are taught at MCAS Miramar annually. Mobile

Training Teams conduct courses in any locations requested and funded by the hosting unit.

**Purpose.** Marine Corps Instructors of Water Survival supervise and conduct water safety and survival programs and instruct personnel in the techniques and methodology of water safety and survival.

### **Scope.**

1. This course is designed to teach students the skills necessary to qualify as a Marine Corps Instructor of Water Survival. The curriculum emphasizes the skills required of an instructor to conduct water survival training, aerobic conditioning, techniques of military instruction, first aid, and CPR for the professional rescuer and American Red Cross Lifeguard/Waterfront Lifeguard Certification.
2. This course includes both classroom instruction and extensive practical application with both written and performance evaluations. Students must master all learning objectives and must pass all evaluations. Students who fail a written or performance exam will receive remediation. A subsequent failure on the remediation evaluation may result in termination from the course. Further training is at the discretion of the School Director. This course is applicable to the reserve component.

### **Prerequisites.**

1. Students must be a Lance Corporal (E-3) or higher grade with commanding officer's endorsement with at least one year remaining until EAOS.
2. Students must be certified on their orders as a current WS-I in accordance with MCO 1500.52(series), must be medically qualified and free of any cold, upper respiratory, ear, nose or skin disorders, or any other medical disorder that may preclude participation in prolonged water training; and physically qualified to participate in extensive water training.
3. Must be screened and recommended by a current MCIWS, bring a completed [prescreening checklist \(NAVMC 11627\)](#) – enclosure (4) pages 151 to 152 - signed by commanding officer within thirty days of course convening.
4. Must have completed MARINENET (MARMGMT 001) Risk Management training prior to

attending or equivalent.

5. Must have printed Marine Online (MOL) Basic Individual Record (BIR) and Basic Training Record (BTR) at check in.

Special Notes.

1. Due to the intrinsically physical nature of this course, and the high number of drops we regularly see at the schoolhouse, it is recommended that each potential student attend a 2 week conditioning course conducted by a current MCIWS. This conditioning course will ensure the proper level of aquatic confidence and conditioning required to graduate from this demanding course. Training sections should coordinate with a local MCIWS within the unit or at the pool to arrange such a course.
2. Billeting reservations need to be made as soon as possible upon MCTIMS enrollment in order to maximize the chance of getting a room on base. The phone number for billeting at the Miramar Inn is (858) 271-7111, additional billeting can be arranged at the BOQ (858) 307-4233 or BEQ (858) 307-4235. Due to the physical nature of the course and local traffic conditions, it is recommended that units provide funding for lodging, so Marines are not forced to drive home at the end of each day. All units within a 50 miles radius will not get TECOM funding, and their unit is responsible for funding billeting.
3. Check-in for resident courses will be 0700 the first Monday of the course at Building 2000 (50-meter pool) at MCAS Miramar, California.
4. The Combat Training Tank is located between the Gym and the Theater, across from the PX and Commissary.
5. A prescreening will be administered by EWTGPAC to all personnel prior to the commencement of training. Students must pass all parts of the prescreening. Graduates of this course receive a three-year certification as a Marine Corps Instructor of Water Survival.
6. American Council on Education college credit recommendation: 2 semester hours in Lifeguarding, 1 in Principles of Aquatic Conditioning, and 1 in Survival Swimming (Lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).
7. NAVMC 11627 MCIWS Prescreening consists of:
  - a. Continuously swim 500 meters utilizing any of the four survival strokes (Crawl, side, breast or back strokes) in a time limit of 13 minutes or less.
  - b. After executing a feet first entry, swim under water 25 meters without breaking the surface.
  - c. Utilizing the side stroke, swim 50 meters while carrying a 10lb rubber dive brick; the brick must remain out of the water for all 50 meters.
  - d. In 40 seconds or less, execute a feet first entry, swim 20 meters, execute a feet first surface dive and retrieve a 10 lb. rubber brick from the bottom of the pool (minimum 10 feet) and return to the surface. The time will stop once you break the surface of the water with the brick. You will then return to the point of entry with two hands remaining in constant contact with the brick, and your face out of the water the entire time.

Equipment Required from Student upon Reporting.

- 2- T-shirts (green)
- 1- Pair Running Shoes
- 1- Small Bag (gym)
- 1- PT Shorts (green)
- 2- Pair Swim Goggles

- 1- Pair Shower Shoes
- 2- Large Towels
- 1- Pair UDT Swim Trunks (for male and female students)
- 1- Swim Suit (female, one piece, conservative i.e., black or green)
- 1- Sun Screen
- 2- Pair Combat Boots (one pair for water work)
- 2- Sets of Utilities (one woodland set for water work, and one set in accordance with seasonal uniform Reporting Orders regulations)
- 1- Whistle with Lanyard
- 1- Notebook with Paper
- 2- Pens
- 2- Pencils
- 1- Highlighter
- Health and dental records
- Health and comfort items
- Reporting Orders
- Appropriate Liberty Attire

## Maritime Navigation Course

CIN K-2E-3743	CID/CDP N30H4A1/585D	MASL Number	P124020
Length 12 days/8-12 hours per day		Classification	UNCLAS
Class Capacity Minimum 4 Maximum 12		MOS	None

Quota Control. EWTGPAC at (619) 437-2975. Normal annual frequency for the course is two resident classes. Classes are typically executed as part of a comprehensive nine week Amphibious Raid Package that trains infantry companies preparing to deploy as boat companies with the 31st Marine Expeditionary Unit. Stand-alone Maritime Navigation classes are available with advanced coordination with EWTGPAC and approval from training command.

Format. This course can only be taught at EWTGPAC aboard Naval Amphibious Base, Coronado because of facility, support and coordination requirements.

Purpose. To provide Marines with the navigation skills required to plan and execute long-range, over-the-horizon (OTH) transit, under total Emission Control (EMCON) conditions, in varying sea states up to and including sea state 3/Beaufort Force 4, and accurately navigate to a specific beach landing site with follow-on rendezvous with a recovery vessel.

Scope. This course is designed to teach Marines the skills necessary to navigate in small craft over long distances of open water using dead reckoning and piloting skills. The curriculum consists of instruction on navigation publications and equipment, nautical charts, aids to navigation, dead reckoning, nautical compass, piloting, current sailing, tides, currents, and planning maritime navigation operations. The course includes both classroom instruction and extensive practical application with both written and performance evaluations.

### Prerequisites.

1. Students must:
  - a. Be a Corporal or above,
  - b. Be proficient in basic math skills including decimals and fractions.
  - c. Be qualified and certified on their orders as WS-I or higher in accordance with MCO 1500.52(series).
2. Pre-screening note: Before students are allowed to train in the water, the students will be screened to ensure they have the aquatic abilities to safely take part in waterborne training. The pre-screening (in full utilities with boots) will consist of:
  - a. Complete a 250 meter continuous swim using any stroke.
  - b. Rescue a simulated victim wearing a Personal Floatation Device and tow them 25 meters to safety. Any stroke may be used.
  - c. Stay on the surface for 10 minutes without the use of a floatation device.

Special Equipment.

2 Sets of Utilities	1	Whistle
2 Utility Covers	1	Towel
1 Boonie Cover	3	Pens
1 Watch Cap	3	Pencils
2 Pair Combat Boots	1	Wristwatch
6 Pair Drawers	1	Small Bag (gym)
6 T-Shirts (green)	1	Pair Running Shoes
6 Pair Socks (green)	1	Waterproof Bag
1 Sweatshirt		Reporting Orders
2 Combination Locks		Health and Comfort Items
1 Set Gortex		Sun Glasses
1 Flashlight		Sun Screen
1 Calculator		Liberty Attire

Special Notes.

1. American Council on Education college credit recommendation: 3 semester hours in Navigation (Lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).

FAQs.

1. Class location. Personnel attending a resident course will report to building 317, classroom 210; Expeditionary Warfare Training Group-Pacific, Naval Amphibious Base Coronado, 3423 Guadalcanal Road San Diego, California 92155-5099.
2. Report time. NLT 0745 on Training Day 1. It is advised to plan for an arrival time of 0715 to mitigate against likely, Coronado Bridge and NAB main gate traffic.
3. Uniform. Full utility uniform for training. MCCUU's (USMC) or Branch equivalent ("Fatigues") for the duration of the course. However, at check-in and throughout the course they will need a separate set of their MCCUU's (or equivalent) and boots to be sued in the T-day 1 swim screener. They will check in ready to conduct the swim screener as the first order of business.
4. Gear. See \*Special Equipment listed (above).
5. Welcome Aboard email. Students receive reporting instructions at least one week before class start date from N78 Raids Ops/OIC.
6. Orders. N78 does not stamp orders unless it is a FOS unit (outside the "regular" units that come through who are slated to deploy with the 31st MEU). In this case, N78 instructors will take the FOS unit individual orders and deliver them to the N1.

## Scout Swimmer Course

CIN K-2E-3742	CID/CDP N30L8K1/585C	MASL Number	P124111
Length 15 days/8-12 hours per day		Classification	UNCLAS
Class Capacity Minimum 8 Maximum 18		MOS	None

Quota Control. EWTGPAC at (619) 437-2975. Normal annual frequency for the course is two resident classes. Classes are typically executed as part of a comprehensive nine week Amphibious Raid Package that trains infantry companies preparing to deploy as boat companies with the 31st Marine Expeditionary Unit. Stand-alone Scout Swimmer classes are available with advanced coordination with EWTGPAC and approval from training command.

Format. This course can only be taught at EWTGPAC aboard Naval Amphibious Base, Coronado because of facility, support, and coordination requirements.

Purpose. This course trains students to perform the duties of a scout swimmer for a small boat raid company.

Scope. This course trains personnel in the skills necessary to plan and execute beach and urban swimmer reconnaissance in support of small boat operations. The curriculum consists of instruction in dangerous marine life, scout swimmer equipment, surf observations/reports, mission planning, and beach and urban scout swimmer techniques.

Extensive practical application is conducted on different beach and urban sites located throughout the local area.

### Prerequisites.

1. Students must be qualified as WS-A in accordance with MCO 1500.52(series).
2. Students must be screened by a MCIWS to do:
  - a. 25m underwater swim and,
  - b. 30 minute stay on the surface

Note: these events must be conducted in utilities and boots.

3. A command letter must be provided stating that the students have met the qualifications stated above. This letter can be provided by a MCIWS or a designated MCIWS representative.

### Pre-screening note.

Before students are allowed to train in the water, the students will be screened on training day one to ensure they have the aquatic abilities to safely take part in waterborne training. The pre-screening (in full utilities with approved footwear) will consist of:

1. Completing a 500 meter continuous swim utilizing any of the following strokes: Crawl stroke or Side stroke.
2. Swimming 25 meters towing a simulated victim dressed similarly. The student may switch hands during the swim.
3. Remaining afloat for 15 minutes without the use of a floatation device. Students must tread water for the duration without using “drown-proofing” techniques.

4. 25 meter underwater swim.
5. Entering the water from a height of 8-10 feet.

If any event is failed, the student will be given an opportunity to retry the event one time. If the second attempt is failed, the student will be dropped from the course.

#### Special Equipment.

4 Sets of Utilities (2W/2D)	1 Whistle
2 Utility Covers	1 Towel
1 Boonie Cover	3 Pens
1 Watch Cap	3 Pencils
2 Pair Combat Boots	1 Wristwatch
6 Pair Drawers	1 Assault Pack
6 T-Shirts (green)	1 Pair Running Shoes
6 Pair Socks (green)	2 Combination Locks
1 Waterproof Bag	1 50# waterproofed sand-bag
1 Poncho	1 set cammie paint
2 Canteens	
1 Cartridge Belt	Health and Dental Records
1 LBV	Reporting Orders
1 Flashlight	Health and Comfort Items
1 Set Gortex	Sun Screen
1 35# waterproofed sand bag	Sun Glasses
1 Camelback	Liberty Attire

#### Special Notes.

1. Uniform. Full utility uniform for training.
2. American Council on Education college credit recommendation: 1 semester hour in Advanced Swimming, 1 semester hour in Survival Swimming, and 3 in Information Gathering (lower-division, Baccalaureate/Associate). Credit recommendations appear on the graduate's Joint Service Transcript (JST).

## **N79 Senior Amphibious Warfare Officer**

**Organization.** The Senior Amphibious Warfare Officer Course (SAWOC) is staffed by two post command 05 AMW Officers. Courses will alternate between EWTGLANT and EWTGPAC with lead from the designated location supported by their opposite command counterpart.

**General Information.** The creation and implementation of the pipeline training for AMW Senior Officers addresses a long standing and long recognized deficiency in AMW training. Prospective Executive Officers, Commanding Officers, PHIBRON Commodores and Deputies, as well as PHIBRON and ESG staff officers, ACU, NBG, and BMU officers will be properly prepared to execute AMW operations and missions. This effort satisfies the training requirements established in the draft AMW TRD, fulfills the tasking from the flag-led Maritime Warfare Board of Visitors, and supports CNO and CMC initiatives to revitalize AMW skill sets and restore AMW capabilities in the Surface Force and USMC.

**Course Coordination.** Course Directors/Managers can be contacted at the following number for detailed information concerning course content or matters requiring subject area expertise.

<u>AREA</u>	<u>LOCATION</u>	<u>COMMERCIAL</u>
SAWOC	EWTGPAC	(619) 522-7746
	EWTGLANT	(757) 462-7000

## Senior Amphibious Warfare Officer Course (SAWOC)

CIN K-2G-0245	CID/CDP None/23KY	MASL Number	N/A
Length 25 days/8 hours per day		Classification	<b>SECRET</b>
Class Capacity Minimum 4 Maximum 12		NOBC	None

Quota Control. EWTGPAC Quota Management Office. Annual frequency for the course is two resident classes at each command for a total of four courses conducted annually. To request seats - in order of precedence: (1) [eENTRS](#) by way of Training Officers/Petty Officers, (2) [EWTGPacRegistrar.fct@navy.mil](mailto:EWTGPacRegistrar.fct@navy.mil), or (3) at (619) 437-2844/5679/5872 (DSN 577-2844/5679/5872). The prospective student's DoDID (aka EDIPI) is required.

Format. Taught in residence alternating at EWTGPAC and EWTGLANT.

Purpose. To provide Naval Officers (O-4 and above) selected as Prospective Commanding Officers (PCOs) and Prospective Executive Officers (PXOs) for amphibious ships and staffs with the current tactical knowledge and practical skills required to command, plan, and execute Amphibious Warfare operations, including joint and combined operations. Emphasis and focus are on the capabilities of the Navy/Marine Corps team, interaction between the OTC, CWC, and subordinate Warfare Commanders and Coordinators, as well as integration with joint and Coalition forces.

Scope. SAWOC includes training at EWTGLANT/EWTGPAC in addition to the following CINs:

Amphibious Airspace Operations Coordination (AAOC)	J-2G-0044
Amphibious Warfare Indoctrination (AWI)	K-2G-0037
Amphibious Warfare Staff Planning (AWSP)	J-2G-0048.

Prerequisites. None

Special Instructions. Please ensure that your unit security manager submits a visit request including all attending personnel from your unit to EWTGPAC through DISS. The SMO Code is N630186. Also, please indicate the course name in the Visit Name block of the DISS request form. Once the request has been submitted, please call (619) 437-3424 with any questions you may have regarding your security clearance submission.

## N62 War gaming, Modeling and Simulation (M&S) Division

Organization. The War gaming and M&S Division is staffed by military, government, and contracted civilian personnel. In addition to director and supervisory personnel, subject matter expertise within the N62 division includes network administrators, C4I technicians, and civilian war gaming specialists (CWGS).

General Information. The War gaming and M&S Division supports command managed courses of instruction, enhancing training through the use of synthetic systems that support live, virtual and constructive (LVC) training for various exercises and events within PACIFIC FLEET. The Joint Expeditionary Warfare Lab (JEWL) supports not only Navy and Marine Corps staffs but also Coalition and Joint entities. The JEWL can support an array of synthetic and LVC events but primarily supports training in doctrine, tactics and techniques in Naval Expeditionary Warfare with a focus on amphibious operations. The JEWL is a 13,000 square foot open SECRET storage facility that has SIPRNET and Secure VTC capabilities. The JEWL can synthetically replicate an array of warfighting cells to place students in a challenging synthetic and LVC operational environment. The JEWL utilizes the Navy Continuous Training Environment (NCTE), which is the Navy's network backbone for distributed gaming to multiple training locations

The following is a list of JEWL real-world C4I systems and applications:

- GCCS-J Global Command and Control System Joint
- AFATDS Advanced Field Artillery Tactical Data System
- EMT Effects Management Tool
- JADOCS Joint Automated Deep Operations Coordination System
- NFCS Naval Fires Control System
- TBMCS Theater Battle Management Core System
- JTCW Joint Tactical COP Workstation
- JTT Joint Targeting Tool

War games typically include pre-deployment training for ARG/MEU staffs and elements, as well as Fleet/MEF exercises. Additionally, games can be tailored for individual units.

Course Coordination. The of JEWL staff can be contacted for specific course content or other information requiring subject matter expertise on configuring tailored training through JEWL utilization.

Length Varied			Classification	<b>SECRET</b>
Class Capacity	Team Training		MOS/NEC	None

Quota Control. EWTGPAC at (619) 437-5137/5075 or DSN 577-5137/5075. Annual frequency for the course is 6-10 resident classes.

Format. Taught in residence when requested.

Purpose. Tailored synthetic training events are computer-assisted exercises conducted in the Joint Expeditionary Warfare Lab (JEWL). These exercises are developed and executed to train warfighting staffs and selected units in various warfare areas within the Navy and USMC enterprises with the goal of developing, maintaining and enhancing proficiency in command and control skills.

Scope. These exercises are conducted using Modeling and Simulation systems (i.e., JSAF, VBS, and MTWS) to stimulate/replicate real-world Command and Control Systems (e.g., GCCS-J, TBMCS, AFATDS, JADOCs, and JTCW). This allows staffs and units to develop planning and execution skills while providing a venue for enhancing operator-level proficiency and validation of tactics, techniques and procedures prior to participating in real-world operations. Because these exercises are tailored to accomplish staff and individual unit training goals, involvement by the requesting training audience in the design, development, and execution of the event is critical.

### Prerequisites.

1. SECRET clearance is mandatory.

Security clearance verification must contain the following information: full name; rank, grade, or rate; date and place of birth; social security number; citizenship of proposed student; name and address of the activity to be visited; date and duration of the proposed visit; security clearance of proposed visitor, investigation type, date of investigation; and phone number and verifying signature of the Security Manager (if faxed). Member's must advise their unit's Security Office to send a DISS Visit Request with the Visit Name matching the event name. The Security Manager can be reached at (619) 437-9676. EWTGPAC DISS code is N630186 – POC JEWL Event.

Special Notes. The JEWL facility directly supports various EWTGPAC resident courses which have priority over non-syllabus events. Commands interested in JEWL utilization should contact EWTGPAC JEWL staff to inquire about availability and additional details prior to requesting this course.

## NAB CORONADO INFORMATION

### EWTGPAC TACAIR DEPARTMENT

Phone: 619-437-2881/2641

Location: BLDG 15, Classroom 6 on the second deck (0700 on 1st day of class)

JFO Course Manager: MSgt James S. Hunt  
E-mail : James.S.Hunt20.mil@us.navy.mil

JFO Contract Course Manager: Mr. Joseph Davis  
E-mail: joseph.davis1.ctr@navy.mil

**Billeting:** BILLETING IS NOT PROVIDED BY EWTGPAC. STUDENTS TRAVELING FROM CAMP PENDLETON ARE HIGHLY RECOMMENDED TO BOOK LODGING WITH FUNDING FROM THEIR PARENT COMMAND. THERE IS A HIGHER RISK OF INJURY AND FAILURE DUE TO THE DAILY COMMUTE, LONG ACADEMIC DAYS, AND THE HIGH-TEMPO TRAINING ENVIRONMENT.

Recommended On-Base Lodging:

Bldg 504 Navy Gateway Lodge, NAB Coronado

Phone # 619-437-3860

**Messing:** Messing is available and directed onboard NAB Coronado

**Security Requirement:** Visitor request **NOT** required.

**Uniform:** Seasonal MARPAT and Service Uniform as per MCO P1020.34G,

## GENERAL INFORMATION

**Students should pre-read the following (tested on initial JFO pre-test):**

- 1 Chapter V (Execution) JP 3-09.3, Close Air Support
- 2 Chapter 3 (Requesting and Adjusting Artillery, Mortars and Naval Gunfire) MCRP 3-10F.2 Supporting Arms Observer, Spotter and Controller
- 3 Review (MCRP 3-31.6) JFIRE, Multi-Service Tactics, Techniques and Procedures for the Joint Application of Firepower

**NOTE 1:** Pages 2 and 3 of this checklist must be completed and signed by the supervising **Air Officer and Operations Officer** and turned in on the first day of the course. Failure to provide these documents will be grounds for disenrollment.

Enclosure (3)

## Marine Corps Instructor of Water Survival Prerequisites/Prescreening Checklist

Attendees to the Marine Corps Instructor of Water Survival (MCIWS) course must complete sections 1-3 of the following checklist prior to coming to the course. Bring this checklist and all other additional paper work to the first training day.

1. Name:	Last	First
		M.I.
	MOS	Phone #
		Date

2. The above individual must meet the following pre-requisites in order to attend the Marine Corps Instructor of Water Survival course :

- The nominee must possess the grade of E-4 or above. (Non-waiverable)
- The nominee must be a current WSI.
- The nominee must have at least one year of obligated service time remaining.
- The nominee must possess a current Marine Corps 1st class PFT, or equivalent.
- Must be screened or recommended by a current MCIWS/MCITWS. (Fill out below)

Name: MCIWS/MCITWS	Signature	Phone #
--------------------	-----------	---------

3. Ensure the nominee brings the following administrative items to the first training day:

- Orders to attend.
- Medical record.
- A copy of BIR/BTR (Proof of current 1st class PFT and water survival certification).

4. The above individual must be able to meet these following pre-screening requirements on the first training day of the course:

- Continuously swim 500 meters utilizing 100 meters crawl stroke, 100 meters breast stroke, and 300 meters utilizing the breast or crawl stroke.
- After executing a feet first entry, swim under water 25 meters without breaking the surface.
- Utilizing the Life Saving Stroke (sidestroke), swim 50 meters while carrying a 10 lb rubber dive brick. The brick must remain out of the water for the entire 50 meters.
- In 40 seconds or less execute a feet first entry, swim 20 meters, execute a feet first surface dive and retrieve a 10 lb rubber dive brick from the bottom of the pool (minimum 10 feet) and return to the surface. The time will stop once you break the surface of the water with the brick. You will then return to the point of entry with two hands remaining in constant contact with the brick, and your face out of the water the entire time (this portion is not timed).

Adobe Designer 8.0

5. Nominees must bring UDTs, goggles, and an additional set of the green MARPAT uniform with boots for in water training. All additional gear will be provided by the sponsoring schoolhouse.

6. For any questions, contact the Marine Corps Water Survival School (MCWSS ) at DSN: 751-0909 Comm: (910) 450-0909.

Attendee's Signature:

CO:  Name  Signature

## Command Screening Checklist Maneuver Warfare Course

### PRIVACY ACT STATEMENT

In accordance with the Privacy Act of 1974 (Public Law 93-579) this notice informs you of the purpose for collection of information on this form.

Please read it before completing the form.

**Authority:** 10 U.S.C. § 5013; 10 U.S.C. 5041; 10U.S.C. 1074f; 32 CFR 64.4; DoDD1215.13; DoDI 3001.02, CJCSM 3150.13B; DoDI 6490.03; MCMEDS; SECNAVINST 1770.3D; MCO 7220.50; E.O. 9397 (SSN); and SORN M01040-3.

**Purpose:** Information is obtained to identify personnel who are assigned as students to Maneuver Warfare Course (MWC), formerly Ground Combat Element Operations Specialist Course (GCEOS). The collected information will be maintained in the Marine Corps Training Information Management System (MCTIMS) database.

**Routine Use:** Information collected on this form may be shared outside the DoD for those specific purposes and listed organizations identified as DoD Blanket Routine Uses at

<http://dpcl.dod.mil/Privacy/SORNSIndex/Blanket-Routine-Uses/>.

**Retention:** Automated MCTIMS records are retained permanently.

**Disclosure:** Providing information on this form is voluntary. Failure on your part, however, to answer all questions or any misrepresentation (by omission, concealment, or by misleading, false, or partial answers) may serve as a basis for denied assignment to the school you are requesting to attend.

**Information:** Formal Courses are not screening institutions. In order to preclude students from being turned away upon arrival, it is necessary that parent commands ensure their Marines satisfy enrollment prerequisites set forth in NAVMC 1200.1 and this checklist.

**\*Nominee is excused from all parent command duties and responsibilities and is unimpeded by appointments and existing family and/or financial hardships that may disrupt attendance.\***

**Submission Instructions:** Copies of this completed Command Screening Checklist and your Orders will be brought to Instructor staff on the day of arrival.

REF/A/MSG/CG TECOM/061353Z FEB 25/

REF/B/DOC/MCO 3502.40/7 JUL 2023//

NARR/REF A IS CG TECOM MSG announcing temporary suspension of USAID support to USMC training, exercises and education/

REF B Describes policy for coordinating interagency (IA) support into Marine Corps training and education/

POC1/Bran, Roberto/CIV/interagency training coordinator, TECOM G3

Joint Interagency Branch/COMM: (703) 432-0046/DSN: 378-8167/email: [Roberto.Bran@usmc.mil/](mailto:Roberto.Bran@usmc.mil/)

POC2/Martynenko, Alexander/CIV/Deputy, TECOM G3 Joint Interagency Branch/COMM: (703) 432-1610/email: [Alexander.Martynenko@usmc.mil/](mailto:Alexander.Martynenko@usmc.mil/)

GENTEXT/Remarks/

1. REF A announced the temporary suspension of united states agency for international development (USAID) support to USMC training requirements and its adverse impact on units and organizations training to Marine Corps tasks related to Foreign Humanitarian

Enclosure (7)

assistance (FHA) and foreign disaster relief (FDR) operations. included, was the postponement of the Joint Humanitarian Operations Course (JHOC) or Humanitarian Assistance Essentials (HAE) executive brief.

2. In response, CG TECOM began to explore the feasibility for replacing JHOC with the center for excellence-disaster management (CFE-DM) humanitarian assistance response training-disasters (HART-D) course by identifying key advantages, potential challenges, and implementation considerations in meeting USMC operational requirements.

2.a. Key Points

2.a.1. JHOC focuses specifically on USAID/ bureau for humanitarian assistance (BHA) and how the military supports ha/dr efforts under its framework.

2.a.2. HART-D provides a more operational-level perspective, focusing on applying military planning and decision-making processes in disaster response.

2.a.3. JHOC and the HART-D both focus on enhancing military understanding and coordination in ha/dr operations.

2.a.4. HART-D can complement JHOC but is not a direct replacement, particularly for those needing a deep understanding of USAID/ BHA's role in humanitarian response. however, for personnel focused on military operational planning in ha/dr, HART-D could be a viable alternative

2.a.5. HART-D is not currently in MCTIMS; no formal POI review has been conducted, nor is it mentioned in ref (b), MCO or METL.

3. CG TECOM has approved HART-D as a suitable training alternative for JHOC as it encompasses all essential ha/dr content necessary for conducting operations. once all formal course requirements are met a CID will be established in MCTIMS.

4. Coordinating Instructions:

4.a. USMC units and organizations should continue to register requirements for FHA/DR exercise support (to include scheduling HART-D, with CG TECOM per ref (b)).

4.b. TECOM G3 will notify USMC units with registered requests of CFE-DM availability, scheduling requirements, and contact information for further direct coordination.

4.c Information about CFE-DM can be found on their website at: <https://www.cfe-dmha.org/>
